Feasibility and risk

This section helps us to understand how you will successfully deliver your project.

We need to know your plans for managing the project, what your budget is and how you will respond to any risks or challenges.

You don't need to have managed a project before, but you need to be able to demonstrate that you have given consideration to how you will manage the project, the budget, and any risks/challenges, and that you or your project partners have the skills to ensure it is delivered successfully.

When we look at your answers to the questions in this section we will think about:

- whether the budget is appropriate for the scale and type of activity?
- how appropriate are the areas of income and spending?
- whether all items in the budget are relevant and reasonable [are fees or wages appropriate to the context? Have quotes for assets/equipment been appropriately researched for any purchases?]
- whether the activity is attracting income from other sources; - is any other income confirmed? If not, are your potential income sources realistic?
- if appropriate financial controls are in place - Do you or the people you're working with have the necessary skills to manage the budget?
- if the activity is realistic and well-planned, and if you have demonstrated that you or the people you are working with are able to deliver the project

As you are applying for over £30,000:

- if the cash flow is appropriate for the project

Project timeline

Project dates

Tell us the start and end dates for your project.

Please allow enough time to plan your project and for us to process your application, as well as enough time for us to make a payment before your start date if your project is successful. See our How to apply guidance for more details.

The dates you give here should be the dates for the full project you're asking us to fund.

We need twelve weeks to process applications for over £30,000.

Project start date: 28/03/2023

Project end date: 23/03/2024

Please use the tool below to list the main stages and tasks of the project from the start date onwards, and to show who will lead on each element of the project. Please add each project stage in order. You must enter at least one stage.

To create the table, click the 'Add new item' icon on the left of the screen to add a project stage. To add more than one stage, use the 'Save and Add another' button.

The table at the bottom of the page will populate with the information you enter about the stages of your project.

Budget - Income

Income table

Please complete the income table below with all your cash income, as well as any support in kind you will receive. (By support in kind we mean goods or services that you would otherwise have to pay for, but are being provided for free.)

Remember:

- Your budget must balance. This means your total income needs to be the same amount as your total expenditure.
- Only include income that relates specifically to this project.
- Do not include personal access costs in the income table. These are automatically included in the total amount you are requesting from us.
- For any earned income you should include how these amounts have been calculated in the description field, for example:

Ticket sales (7 dates @ 60% of 100 capacity x £8 ticket price) £3,360

To add an income line

To add each income line, click the 'Add new item' icon on the left of the screen. To add more than one line of expenditure, use the 'Save and Add another' button.

AitP accesses multiple revenue streams with a dedicated finance lead on the board. Its income streams for 2023 continue a confident growth trajectory.

- In 2022, total stalls & food/drink pitches income was £47876, AitP have grown that to a confirmed £76809 - an increase of 60% - prices were held last yr to protect the event post Covid, but cost of living has forced a 20 % increment, though pitches are still very fairly priced for revenue generated & approved by the board

- Donations est. based on '22, accounting for cost of living impact to protect low income families, improved by digital payment systems installation - expected £3000

- Sponsorship Income: previous sponsors have confirmed, new festival sponsors & brochure sponsors expected by 19/5/2023 - cumulative £29450: 20% increase on 2022 (£16851) driven by huge interest in the event from local sponsors

- Other grants: WTC Grant £1,000 - confirmed & a conversation in place to massively increase support over next few yrs in recognition of the impact on the town's cultural strategy

- Warwickshire Arts Fund £900 - confirmed

- 87% of additional income is confirmed with an excellent rationale for the expected 13%, & ACE covering just 40% of expenditure

- AitP is building a thriving creative economy. Earthen Lamp impact report returned an est. economic footprint of local activity as a direct result of AitP 2022 of £2.2million.

Budget - Expenditure

Expenditure table

Please complete the expenditure table below with all your cash expenditure.

- Only include expenditure that will be spent between the start and end date of your project.
- The table already includes any Support in kind you added on the Income screen so you do not need to add this.
- Breakdown your expenditure so we can understand your costs, for example: Artist fee (2 x Creative specialists @ £150 per day for 10 days = £3,000)

Expenditure questions

How have you worked out the costs of the artistic spending included in your budget?

Up to 1500 characters

Artistic spending is calculated by an experienced finance manager on the board, in conjunction with Kate Livingston, Festival Director & the strategic direction of Sasolo to steer spend & categorisation of investment to grow the profile with sufficient attention to infrastructure, inclusion & access.

The board & core creative team co-devise the fees in consultation with the artistic, technical, production & delivery freelancers. All costs & fees are meticulously examined to support industry standards, in recognition of excellence & quality & a sustainable approach.

AitP has delivered & managed a steady growth of artistic remuneration over the last few years, responding to previous ACE feedback concerning fee structures, growing the Director role to be commensurate with industry standards (AU fees for 5ys + exp.) & support her continuation at the helm of an incredibly successful arts vehicle.

The team have moved away from reliance on support in kind for key functions & developed instead a volunteering portfolio which offers real shadowing opps whilst paying key staff fairly & appropriately.

The board agree the expenditure in advance & calculate the fees as no more than an agreed maximum of overall spend targets for each year against the AitP strategic plan. Every fee is explained & unit costed in the detailed budget attachment.

Risks and challenges

What are the main risks and challenges to your project meeting its aims? What will you do to manage these risks?

Up to 1500 characters

- Covid & government guidelines: venue is outdoor with appropriate space & ventilation for the number of attendees with appropriate distancing & reiteration of public awareness. PPE for all the AitP team. In 2022 95% of respondents felt safe during their visit.
- Illness, incapacity amongst key performers or AitP organisers: appropriate training in advance by Event Manager across key roles has been discussed.
- Equipment/build supplies failure: back up plan for any suppliers. Follow up prior to event.
- Trip/fall/allergic reactions – First Aiders on site.
- Legacy & evaluation not fit for scale up: extensive embedded plan & collated evaluation informs each new proposal & embedded support from mentors prevents any lack of capacity.
- Insufficient funding: AitP has grown its funding capacity significantly - rising to a complete portfolio of confirmed funding close to £100K at point of application
- Accessibility: all staff continuously trained in access & inclusion for neurodiverse / disabled / invisible impairments.
- Not securing a strong participatory / final audience: extensive outreach & existing embedded partnerships & PR visibility is in place.

Delivering the Outcomes

Your Project and the Outcomes

Our strategy sets out three outcomes; Creative People, Cultural Communities and A Creative and Cultural Country. We do not expect every project to address all three outcomes, but we do want projects to align to at least one and to set out in detail how particular components are being addressed.

You can read about our three outcomes here: <https://www.artscouncil.org.uk/outcomes-0>

When we look at your answers to the questions in this section, where relevant we will think about:

- How your project is supporting people at all stages of their lives to design, develop and increase their participation in high quality creative activities
- If your project focuses on children and young people:
 - If your project reaches families from a wide range of backgrounds
 - If you are widening and improving opportunities for children and young people to take part in creative activities outside schools
 - if your project is supporting children and young people to develop their creative skills and potential
- If you are working with communities to better understand and respond to their needs and interests, resulting in increased cultural engagement and the wide range of social benefits it brings
- If your project is exploring new types of creative practice, new forms of cultural content and new ways of reaching new and existing audiences and participants
- If you are collaborating with other cultural organisations and/or with the commercial creative industries and/or with further and higher education that focuses on innovation, research and development and training, especially in relation to the use of new technologies
- If your project is strengthening the international connections of cultural organisations and creative and cultural practitioners, including co-production and touring
- If your project is bringing world-class culture to audiences in England
- If your project helps to ensure people have opportunities to sustain their careers and fulfil their potential in the creative industries, especially those who are currently under-represented
- If your project is connecting people and places, nationally and internationally

How will your project contribute to the delivery of at least one of our Outcomes, including which, if any, of the Outcome components?

A Creative and Cultural Country: England's cultural sector is innovative, collaborative and international, Cultural Communities: Villages, towns and cities thrive through a collaborative approach to culture, Creative People: Everyone can develop and express creativity throughout their life

How will your project contribute to this outcome?

Up to 3000 characters

AitP 2023 works with the corporate (sponsorship), private (digital & media), public (community orgs, arts orgs, arms length bodies, local & district council), educational (schools, colleges) & creative (artists, advocates, societies) sectors.

It is pioneering a collaborative approach to the delivery of culture. Supported by WDC Creative Compact, it drives multiple strategic priorities from the district's Creative Framework which aims to accelerate creative sector growth & maximise impact across Warwickshire. Partnering with WDC's 'Shout out for the Arts' to inc. the yth voice.

It has been recognised by WDC for its ability to build cohesive relationships across racial, economic & cultural divides, offering strong outcomes in the Engagement strand by:

- building a voice for marginalised grps in the arts
- building cohesive yr round integrated initiatives which involve local schls, community grps, artist advocates & marginalised communities
- introducing community steering grps in South Leamington, driving cross sector initiatives to ensure the public sector supports the creative sector with free transport & food vouchers to engage low income families - chaired by local community reps
- partnering with Warks College to recruit mentees for 2 shadowing programmes (Photography & Stage Management) from the media dept, last yr led to 1 new job for the sound stage volunteer; thus building career opps in cross sector collaboration which ensures the town & its residents thrive through a collaborative approach
- working with Leamington digital/cultural sector to implement innovations such as Atmap App - mapping the festival in real time to promote activities by time/accessibility/age grp etc. driving inclusion & sustaining career opps for local companies, spotlighting creativity in the digital sector
- offering wkshps with partners eg. Earthbound which also tie to environmental awareness campaigns in schls by offering wkshps in the build up to the wknd performance
- expanding outreach & inclusion officer meetings with the community to ensure the offer is appropriate & well articulated according to needs, using each org to build in translation, cultural awareness, design spaces for SEND grps to relax, co-devise content that reflects the local demographics, e.g. Ukrainian, Indian, Caribbean

National/International connectivity

- World class performers & musicians/creatives are invited to Leamington/Warwickshire to ensure local practice is aligned with international standards e.g. DMAC presents world leading (Brazilian Government funded) Mariana Pinho & Gandaia Arts; Brazil's leading sustainable carnival team, creating work in schls for Black History mnth & open wkshps on site, making carnival costumes for AitP's 1st ever carnival parade with wkshp devised Brazilian carnival arts - dance, song & music.
- Motionhouse perform their latest piece from their world tour connecting Leamington born company working at the highest international standards to local ppl who can't afford to watch the touring show, offering sightlines for local dancers appearing with regional companies in the wknd's performances, promoting creative careers to yng women in particular & promoting the Motionhouse yth company to reciprocally boost local creative initiatives
- DMAC's clock tower performances bring international pedagogies in dance to EVERYBODY - 2022 saw 100's of old, yng, white, BIPOC grps dancing & performing together in hugely popular flashmobs.

Supporting careers

- International percussionist Vieux Bakayoko from Senegal, trained in SEND delivery offers open drumming & percussion wkshps with Djembe, a local resident, it supports artists in mid career trajectories to work locally, bringing their experience of the international stage & Diasporic pedagogies to yng participants.

Building visibility for Warwickshire arts

- AitP is nominated for 'Best Visitor Experience for the Access All Areas Awards.' This is a huge national accreditation with very stiff, commercial competition. This has given the festival a springboard into national visibility.

Digital Innovation

- AitP is a metaspaces, a medium through which communities connect & relate in wkshps & a digital marketplace.
- Art market place showcases 100's of local artists, platforming emergent artists showing for the first time alongside established artists. Taking the marketplace into the digital sphere has increased the footprint of AitP & Director, & increased the possibilities for the medium i.e. digital work, photography, interactive shorts, memes etc.
- AitP understands digital as a new frontier in visual art & is across the development of its digital curation to include working with artists to investigate minting NFT's (Non Fungible Tokens) on the block chain to improve international reach & autonomy
- AtMap App pioneers real time inclusion & promotion using local digital creatives to build new ways of interacting with the festival.

AitP 2022 builds cohesive relationships across racial, economic & cultural divides, it co-designs content with identified grps that are chosen in conversation with stakeholders (artists, sponsors, schls, private & public sector bodies) to represent the local demography. AitP evaluates all its delivery with a professional body; referencing steering grps, artistic feedback & indepth work with the inclusion officer. Its accessibility policy developed in mentoring sessions with national consultancy, Sasolo considers all aspects of disability, income barriers, social & racial profiling.

Confirmed attendance figures from 2022 show improvement in marginalised demographics:

- Older people attending up 6%
- 10% identify as 'other white' up from 6%
- 6% of attendees were Asian in 2022; just 2% in 2019
- 4 % Black or Black British & Mixed Ethnic groups.

Warwickshire residents profile is 1% mixed & 0.5% Black / Black British; AitP attracts a more diverse audience than local population stats; offering cultural cohesion, built by witnessing & participating in community art experiences together.

In 2022 - the most frequently mentioned motivations for attending AitP were, 'to spend time with community (54%), & 40% of the respondents indicated 'to be inspired' as a motivation. 19% of respondents were motivated by AitP or the artists' reputation/heritage an improvement of 16%, a demonstration of how the reach into marginalised communities & relationship to the platformed Diasporic artists is impacting the project.

92% of people said AitP 'improved their quality of life & 2023 continues to creates spaces for those with barriers & the wider population to try new ways of consuming culture, & experience different pedagogies.

Outreach offers multiple collaborative entry points, developing cultural agency, e.g. community grps devise their own responses to decorating the park, installing art that reflects their culture & heritage.

Workforce

- If you're engaging a team of people to work on your project, or are working in partnership with other individuals or organisations, tell us:

- How you will ensure they reflect the communities you wish to reach
- How you will ensure access to opportunities are open and accessible

- If you're not working with anyone else on your project you should explain why and consider how working with others would help you to reflect the communities you wish to reach.

Up to 2000 characters

AitP has an incredible portfolio of apposite & representative partners (see list), it has curated the team & wider partnerships to ensure they understand & articulate the stakeholder communities needs at the festival planning stage. 2023 builds on existing progress & refines the offer to fill identified gaps. AitP know they reach less of the 9-18 demographic & are making this a main focus this year with bespoke outreach.

- Pre event wkshps of songwriting with TULU (yng Black female company, specialising in DJ'ing, Hip Hop, Grime & other urban music) will be targeted through paid social media ads
- Autin theatre will go to 2 secondary schls to do puppetry classes & engage for the Eko performance at the festival

AitP will work with the regional partners to draft an environmental policy that relates to:

- travel
- materials resourcing
- digital mechanisms & energy use
- participation/partner activities.

The policy will be tested during 2023-24; using input from public sector initiatives & referencing Julie's Bicycle for Creative Green initiatives.

AitP will plan to measure:

- energy use in zoom/non F2F activity & hidden impacts of remote working
- waste generation & recycling
- travel & carbon footprint.

AitP will work with each partner to coordinate resources & share policies to improve the joined up approach to better impact the measure. The results will then inform the new priorities.

Data will be used to:

- create a environmental data capture mechanism
- structure the ambitions of a new environmental plan
- share understanding of resources & impacts
- implement minimum standards for travel & materials.

A greater focus on responsible production is a focus for 2023 including:

- Increasing bin management at the event with additional research & provisions in place. Local private company working closely with management team to improve recycling & waste management
- Environmental Communication; signage for additional communication on how to improve the festival working with WDC
- Travel alternatives; working with Stagecoach to create a more accessible festival with potential for park & ride to the event & advertising local public transport to improve sustainable travel.

Advocacy, Education and Influence

If you plan to develop your/your organisation's skills and knowledge on environmental responsibility, tell us about it here:

AitP will:

- investigate minimum standards for all digital work to assess hidden impacts re energy consumption
- create guidance for participants regarding travel, creative ideas to improve carbon footprint inc. links to Library, School & Museum resources regarding travel & energy consumption/recycling.

The AitP team & freelance artists will be part of an initiative to build knowledge into the organisational delivery schemes & infrastructure by undertaking:

- viewing & reading around the subject using Creative Green resources & examining the Creative Green certification framework
- investigation of how to use Arts Council England Environmental Reporting, understanding new ways to capture impact.

The AitP repertoire of activities will be built on a matching portfolio of Green Knowledge to support this & future endeavours, to include: green travel, green resourcing, green delivery as the 3 priority areas, key skills/knowledge portfolio will focus on:

- zero carbon use - advocating for venues/partner spaces, in partnership with schools, WDC etc.
- sustainable methods of energy resource
- sustainable transport for participants, teachers, performers; using public transport & working with orgs who have sustainability policies & checks.

All impact will be eventually be measured via the Green Tools method to ascertain net carbon footprint of AitP activities by 2025.

AitP 2023 is built on extensive ongoing consultations & investigations of the local provision, ensuring needs & priorities are met in the design of the festival. Current partners have been consulted in depth, to ascertain information which contextualises the quantitative data offered in the most recent evaluation documents, which evidence AitP as one of the top cultural events in Warwickshire. The Director works year round with Sasolo, & employs Earthen Lamp to steer the evaluative process.

The board, family steering grp, Shout out for the Arts & artists panel will be consulted pre & post event, led by the inclusion officer, to inform:
-evaluation documents that capture the range of professional & participant experiences. This data explores the understanding of how the festival can be continuously scaled & adapted to an evolving hyper local work context - tackling issues arising in evaluation from cost of living, environmental concerns & social inequity.

The wider evaluation centres around:
- How do AitP convince people to come?
- What is the project legacy?
- How is the project open & accessible?

It will consider multiple data points to inc:
- Full professional evaluation from Earthen Lamp
- SEND, LGBTQ+, BIPOC, & neurodiverse engagement experiences through reports
- Bespoke bi-lingual PR literature - feedback
- Event publicity partnerships with Warwickshire EQUIP (equality & inclusion partnership)
- Advice impact from LGQBT+ network, CEMAP - assessed through changes to plan for 2024.

The festival team & relevant teaching support from 3 South Leamington schools will offer YP in KS2 a framework to assess their own arts/performance marquee
- developing artistic agency & cultural engagement & building the partnership between SPLAT & AitP as the festivals merge, monitoring the responsibility for merged festival decisions under the mentorship of director, Kate Livingston.

Developing Your Work

If this project aims to develop your skills (and those you work with) and contribute to your longer-term ambitions for strengthening the quality of your work, tell us about it here:

Funding enables:

- improved infrastructure to extend the festival's reach & better align with local/regional/national strategy
- participation for students in the apprentice/shadowing programme which builds new skills for emergent artists
- inclusion of internationally recognised artists; embedding a culturally specific, authentic & empowering pedagogy for the festival
- organisational growth which follows an internal theory of change document - positing that visibility for cultural arts in public spaces improves the outcomes for all Black British & Diasporic artists in the region, with AitP being understood as pioneers of culturally authentic education, leading to pipelined wkshps, classes & performances with both community members & elite Black artists
- connections between metropolitan & regional artists, with AitP as the conduit, importing & disseminating pedagogy that is generally aligned with work in the capital; improving local outcomes & strengthening the AitP offer
- traditional, modern & future facing dance/music/theatre fused with modern influences which informs the artistic team's, teacher's & communities' career goals, personal aspirations, collaborative skills, agency & cohesion; platforming AitP as a conduit for such.

In 2022 AitP started investing in training for the delivery team. This has resulted in key members of staff taking on further training & attending more national conferences inc. first aid training, LGBTQ+ awareness training, mental health & awareness, equality & inclusion training. In 2023, AitP creates a role for an Event Manager. It is their responsibility to make sure staff are sufficiently trained in logistics, health & well being to improve the visitor/volunteer experience & the Festival Director is enabled to focus on strategic planning & implementing evaluation led initiatives to continuously improve the offer.

AitP is multi faceted, adaptive & responsive; having delivered a festival in 2022, & planning for 2023 with huge adaptations to the previous years, issues inc:

- managing extreme heat
- recovering from Covid impact
- building a new approach to inclusivity since the handover from previous manager
- working with new outreach concepts, e.g. continuous delivery for 6 mnths
- growing the budget to support paid roles & winding down the reliance on support in kind
- offering agency to external partners to 'take over' areas of the festival - e.g. DMAC programme
- Growing stakeholder / steering grps to influence travel & barrier removal initiatives
- Merging with SPLAT festival team to encompass the areas largest yth festival initiative.

All these progress measures require a flexible, dynamic & resilient planning mechanism & drive the need to elevate costs to support:

- year round planning
- artistic portfolio expansion
- development & investigation time for the Director, consultants & team
- finance for the new event manager, which allows this dynamism to continue; accounting for change & adapting to problems more rapidly & emphatically at the event, as the director is freed up to influence sector change, keep across new ideas & build the international connectivity of this local offer. The team are testing their approach by working with external consultants such as Sasolo & embedding continuous mentorship.

The partnership with LSA - Leamington Studio Artists & Warwickshire Open Studios WOS is stable & key to the success of the visual art market which underpins a large portion of the finance to enable the participatory arm of the festival. It is important that AitP support the profile of LSA & WOS visual artists by offering the digital marketplace & LSA have successfully launched a new gallery space in the heart of Leamington Spa, which will be showcased & drive traffic between digital & F2F projects.

AitP will continue to use the technology in place - website, digital wkshps, digital brochure, social media, online classes etc. In 2022 AitP partnered with AtmapApp which is a local event platform. The app was used to make a live, up to date map, of all that was happening at the festival. This worked very well with a download rate of 18,000 visitors on the weekend. AitP will continue to work on this partnership which includes meetings & discussion to ensure the app has the capabilities & the requirements for the exhibitors, artists, & visitor experience.

Data from the new digital door donation system will also map how, who & when visitors donate, building a better picture of the visitor demography to improve future plans.

4. Subsidy Control

The Subsidy Control rules are the new legal requirements that apply to the award of subsidies in the United Kingdom with effect from 11pm 31 December 2020. They have largely replaced EU State aid rules.

Where a "Subsidy" is present as per the definition of subsidy set out in the Subsidy Control Act 2022 ("the Act") then it is necessary for the award to comply with requirements set out in the Trade and Cooperation Agreement with the EU (and in due course those further requirements set out in the Act).

A "Subsidy" only exists when the following cumulative characteristics are present (only tick those that apply):

- **financial assistance which is given, directly or indirectly, from public resources by a public authority; and**
- **confers an economic advantage on one or more enterprises; and**
- **is specific, that is, is such that it benefits one or more enterprises over one or more other enterprises with respect to the production of goods or the provision of services; and**

☐
☐
☐

- has, or is capable of having, an effect on —
 - (i) competition or investment within the United Kingdom,
 - (ii) trade between the United Kingdom and a country or territory outside the United Kingdom, or
 - (iii) investment as between the United Kingdom and a country or territory outside the United Kingdom.

☐

If awarded, do you believe that your request for public funding meets all the necessary criteria to be classed as a "Subsidy"? No

Where a "Subsidy" is declared you will be required to provide further information to establish whether the "Subsidy" would be considered lawful.

5. Tick the relevant box if any person involved in the project or writing the application:

I am happy to be contacted by Arts Council England, or by a third-party organisation on behalf of Arts Council England, for feedback to help evaluate the programme.

NOTES

Audience Development

According to our Earthen Lamp Survey, 2022 was:

- our best year to date in terms of visitor experience
- in receipt of an NPS score of 81.82
- named as an event 'likely' to be recommended to others in the future.
- conclusive that word of mouth is our biggest source of publicity, just behind Facebook.
- a year where 55% of visitors have been before and enjoyed it so wanted to return. This is a wonderful figure and shows the potential for new visitors.
- a year where (40%) of respondents indicated 'to be inspired' as a motivation for their visit, and a third (33%) wanted to 'do something new/out of the ordinary'.

We can continue to offer new and exciting things at Art in the Park and we hope 2023 will continue to reach those visitors who may not yet know about us. With 32,500 visitors on the weekend (slightly lower due to the festival taking place during a heatwave) we are confident we can expand on this number and in 2023 reach the communities and visitors who may not yet be attending.

64% of our visitors, according to the Earthen lamp review, are local to Leamington. This is wonderful for our local ecology, but we can easily expand this further across the midlands and beyond. This year we hope to have a national reach for our festival.

77% of visitors said they attended to be inspired or do something out of the ordinary. This shows the demand and desire for a cultural festival like Art in the Park. We are future facing, inclusive and accessible and we bring the West Midlands the widest variety of cultural, community facing creative activities to two parks for two days.

We are very proud of what we have achieved in the last ten years, and we can't wait to see what more changes we can bring.

In December 2022 we were shortlisted for 'Best Visitor Experience for the All Areas Access Awards.' This is a huge national accreditation with very stiff, commercial competition. This has given the delivery team a great sense of achievement in what we bring to our visitors., and a springboard to national visibility.

Below are our plans on how to reach ever wider audiences and maximise our potential for inclusion.

Hyper Local South Leamington Cohort

SPLAT collaboration

Working with schools to identify and embed them within the festival. SPLAT was a festival that took place in 2017 & 2018 supported by ACE and Warwick Uni. We have since teamed up with three local schools to sustain this wonderful children's festival. The workshops and mentoring give south Leamington schools a chance to really co-devise and be involved in the shaping of the festival from the beginning, offering confidence, skills uplift and a sense of achievement and pride in what they see delivered at the festival. SPLAT is a 3-school cohort which was developed to give students the power to make plans and see the production side of event planning and culture. For our second year we are working with the SPLAT team to help develop some areas of our festival with hopes to give the children a level of decision making, power, and inspire them to do more in the cultural sector. They will be assisting with three areas of the festival. The first project will be for students to research different arts and crafts that we could use with the theme of Present. These crafts will then be rolled out as part of our community engagement project with schools, and community groups across Warwickshire. The second project will hold applications for workshop artists who will come to each school and host a workshop. The result will be the student's artwork will then be displayed in a gallery tent at the festival. Finally, 3 students from each school will undergo a mentoring project with festival director, Kate Livingston. These students will be part of the selection process for our open call performers. This cemented collaboration with SPLAT means that the youths' ideas are being seen in actual physical form at the festival, and we know this will build confidence and attendance from these students.

Targeted communication and marketing in these areas

We have reduced our general printed press, but we will be continuing to target these areas with flyers outlining what is on offer at the festival, especially bringing attention to what is free to target demographics without internet access and those families with differing access needs.

Increased BIPOC Diversity

Collaboration with DMAC ensures we bring nationally recognised progressive pedagogy to the region, they specialise in diverse arts offerings.

Showcasing different dance styles from across the world generates and encourages a more diverse range of visitors.

DMAC and TULU are working longitudinally with different community groups, to communicate what is on offer and emphasise we have something for everyone. Workshops, song writing, dance, poetry, story writing, arts, crafts. With a wide variety of offerings and collaborations with local dance groups, and community centres we hope that we will see an increase in BIPOC attendance. We already attract more visitors from the BIPOC community, and we will continue engagement and inclusion.

Children and Young people

Our Community Outreach projects always have a strong connection with the young and children, being offered for free at schools and community centres across Warwickshire. We will make sure that our workshops stay suitable for young people. The aim is that if a child creates a piece of art,

they will then attend the festival with pride, to see their artwork on display, building confidence and long term engagement with the arts.

We will have pre-event and post-event workshops in schools. Autin Theatre will run an advance puppetry workshop. The key to these workshops in secondary schools is to draw attention to the festival and create an investment in the arts as an opportunity for self expression for the students. Earthbound will also be holding pre-event workshops in a similar fashion.

We are working closely on our Targeted Comms to develop new cohorts of young people to attend the festival. We will create a Tiktok account and push our social media accounts targeted at the younger visitor, showcasing what they would want to see and do.

Heartbreak performance will offer free tickets aimed at 9–18-year-olds. In 2022 they did a young person performance which had great success in reaching this audience. We look forward to working with Heartbreak again to bring this performance to Art in the Park

We have collaborated with Shout Out for the Arts, and we are in the process of recruiting a Young person to our board to help guide and educate on decision making. we wil also be working with youth steering groups locally, on what they would like to see or change. These will be led by our new Youth Trustees.

Initiatives

AtMap App is an easy and accessible app to help the visitor experience at the festival. The age demographic of the app is 18-45. This partnership allows us to expand our offerings to the younger audience.

Local young dance groups performing LWAD & Motionhouse youth dance group. Collaborating with groups brings confidence and pride, and will inspire visiting youth to participate in our other free, all age, friendly workshops throughout the festival. We will also work on this collaboration to ensure all families know what else is happening at the festival. For the first time we are offering the students a changing room facility to help to promote attendance after their performance.

Working with Warwickshire college with youth mentorships (tech, photo, video). We have done this in previous years, and it has resulted in paid work, post festival, in the different industries. We look forward to continuing to offer this festival mentorship.

Working with youth steering groups on what they would like to see or change. These will be led by our new Shout Out about the Arts, Youth Trustee.

Low Social income

The festival is in a local, free park; removing all economic barriers by keeping the event open and free to access.

All workshops for families are free and have drop-in sessions, so no planning is necessary reducing need for pre-event internet or technology requirements.

Vouchers for free snack packs will be available- feedback to our Inclusion Officer was that the cost of food was daunting for a lot of people to attend. They were conscious their children would want to

eat, and they would not be able to afford to provide for this. We piloted in 2022, snack bags, with the assistance of the Lions group. This was a huge success. We would like to expand this to more food banks and community centres to offer their members and entice them to visit.

Targeted printed media hand delivered explaining everything that is available for free to lower income areas.

We will be working with Stagecoach to offer a voucher system for free transport to the event from lower income areas. To remove the challenges of getting to our event if you live further away.

SEND Visitors

2022 saw our most successful festival for members of the SEND community. We have enhanced our engagement and what we have on offer to make the festival a more enjoyable experience for SEND families. We were able to gather feedback from some of the visiting families who said the festival made them feel happy and calm.

We offer SEND friendly workshops- communication and better planning in advance will ensure this is communicated to the necessary visitors. We also have SEND only times to allow visitors to be able to enjoy as many activities as possible. Improving our website communication and better tailoring this to SEND Families will improve this even more.

Enhanced communication on what we have on offer. Steering group meetings with local families on what would make their experience more enjoyable will be held regularly in April and May to ensure we are providing as many things as possible for these visitors.

A quite safe space for visitors to go. We will have two of these. One in each park which is double the number from 2022.

Digital maps that outline what and where things are that will help make their tailored experience more enjoyable.

BSL interpretation on each music stage, and for performances where required. This will allow Deaf visitors to enjoy, one of the top reasons visitors attend, to watch the music.

LAMP is a collaborative partner for the sensory art and music experience. With activities led by members of LAMP's neurodiverse team, specialising in accessible activities for everyone especially the neurodiverse community.

The feedback from our audience in 2022 was incredible. We plan to keep communicating and seeking first hand advice and knowledge from members of the community to continue to enhance what we have on offer. The Inclusion officer spent 2022 creating new policies and plans, and connecting with many new members of our community that were not attending our festival. This year, in 2023 we will continue to use those connections to strengthen our festival and what we offer. A strong communication strategy will also ensure that we stay on schedule and achieve everything that we aim to do.

TULU PRESENTS: THE LINK UP EFFECT

A two day music creation experience

DESCRIPTION

Live music workshop covering many areas of music creation including production, lyric and melody writing and recording performance techniques.

DAY 1: GROUP SONGWRITING SESSION

Drop into "The Studio" where our producers and workshop attendees will be building a beat live all morning. Whilst showing different techniques and equipment, attendees are invited to creatively explore their talent in the context of a studio session. Guests are able to bring their own instruments or use the equipment provided to create the track the song will be written to. Lyricists, vocalists and rappers are then invited to join the session adding their lyrics to the track.

Audience is welcome around to sit in the viewing spaces around the workshop to watch the development of the track throughout the day and even offer suggestions and ideas for the musicians to follow.

We found from last years event that the audience loved to watch the creative process, many people were astounded to see how everything is put together and were truly excited to hear the finished product. Many audience members retuned at the end of day one and on day two to hear the progress of the song. The open studio format meant that musicians and people who wanted to try were able to wander over and drop in adding their musical flare to the track. We had the addition of 8 instrumentalists and 6 music artist who worked together to write the track performed. This year after the festival we would love to take this a step further by recording and releasing the music created at art in the park after the festival in our follow up sessions.

DAY 2: SONG SURGERY

We invite a host of talented creatives from our network to demonstrate their creative capabilities and discovery to a live audience. We hand pick selection of music artists and vocalists to come and show the band their original songs. The band then work out a live rendition of the song and the artist performs it there and then for the first time.

Quite often, particularly in music performance, there is a level of perfection expected when you watch a performance. At song surgery the performance is the mistakes, the wrong keys and the figuring it out. Last year our audience on day two was truly amazed to witness the band working and building the tracks with the artists. They were able to hear the original rendition along with the band and then were taken on the entire creative journey, from conception to completion topped off with lively impromptu performances and freestyles from audience members who are welcome to join the jam.

One of the most beautiful parts of last year was seeing people of all ages, races and backgrounds coming together to enjoy music from our live musicians. The open mic section was a crowd favourite and we saw some very talented members of the audience join the days performance.

BUDGET ATTACHED HERE

This year as we will be able to use equipment from previous year our main focus will be the staffing and promoting of the event. As you will see in the budget outlined in the link above.

LAST YEARS OUTCOMES

We made a much bigger impact visually and sonically which attracted more guests to our area.

We saw almost double the participants from 2021 - 50 across the weekend

We added DJ workshops which was a hit

We added a full live band to day two

We hosted one of our most inclusive line ups

We launched our 'Play It Forward' Initiative by repurposing equipment used at the festival to help five self employed musicians start gigging by providing them with equipment to use free of charge on their first bookings!

We have supported four new Dj's who are also now gigging at venues in town.

LAMP proposal for Art in the Park 2023

Activity One :

Building on the success of last years AiTP plant music sessions, artists and neurodiverse students of Leamington LAMP will host workshops connecting art, science, food and fun. For Art in the Park 2023 neurodiverse young artists from LAMP will assist the lead artists in facilitating festival goers to learn about growing edible mushrooms in a fun, interactive setting. Living mushrooms will play synthesisers while workshop hosts explain and demonstrate mushroom growing kits using prepared time-lapse film.

Festival goers will be able to plug themselves into a modular synthesiser system becoming a human sequencer using their own bio-data. Humans will be shown a set of basic controls to manipulate sound, generating their own hybrid sensory music.

Liquid Sonic Abstraction is an original painting method that combines painting on prepared water and uses sound waves to disrupt the water surface. The image is printed on treated paper at the moment of disruption.

Timothy Ellis and Elena Cecchinato have been developing the work for a number of years leading to the 'Art in the Age of Now' exhibition by Art Below at Fulham Town Hall in 2021.

For AiTP 2023 they present a live, interactive, participatory demonstration of the art form.

PROPOSAL: ART IN THE PARK

CREATIVE COMMUNITY COLLECTIVE (working title until we can agree a name)

Who we are?

We are a group of Leamington/Warwickshire based freelance artists comprising multiple artistic disciplines and genres. We are dancers, musicians, actors, performers, artists, writers, creators, makers and facilitators who have come together to collaborate, create and make things happen so that we can make Leamington/Warwickshire a more visually vibrant and artistic community, where everyone has the opportunity to access high quality arts through performance and participation with local artists and, ultimately, make our community a better place to live for everyone. We have varying careers in the arts but what we all have in common is being freelance, often a solitary role, the Creative Community Collective will enable us to support each other to create great art.

What we want to do?

This project will launch Creative Community Collective at the 2023 Art in the Park Festival through an immersive creative programme of activity which takes place over a full day of the festival. The activity will be centred around a 'tent takeover' where we plan to transform a tent/marquee into a fully immersive creative space, which will be filled with opportunities to experience performative and participatory events/workshops, all facilitated by local artists in a free flow organic programme of activity across the day.

The aim will be to give a creative experience that firmly roots the participants in the present, allowing them to experience and explore what it means to leave your troubles behind and focus on the now. This could be by soaking up the creative vibe inside the tent, listening, watching, sitting, reflecting or joining in with creative activity, moving, making, speaking, singing, and playing. There will be impromptu improvised performances which will bring together professional artists with members of the local community, as well as other creative participatory activities.

Spilling out into the wider festival, there will also be an opportunity for people to explore the festival site in the park, taking in nature, through an interactive trail where participants will be encouraged to find items in the park and bring them back to the main tent and contribute to the tent transformation.

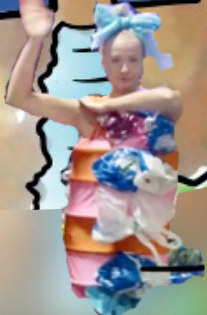

We envisage the tent to be a fully immersive ambient space with sections inside set-up for different activities to take place, for example there may be a small stage in one area, areas for dancing, moving and making, and comfy areas for mindful chilling out.

To devise this creative programme we will undertake a practical research and development day in the studio, which will be an exciting practical exploration of all our different artistic skills, enabling us to put together a structure for us to facilitate the festival day.

Additionally, to provide a legacy for the project we want to produce a time-lapse film of the event, as well as a giant collage with photographs of everyone who accesses the project on the day.

About the show

This is a new work and an idea that Artistic Director, Sioda Adams has been developing since 2018. It features a strong narrative exploring themes that she has been keen to explore in her work with some urgency - due to the ongoing and devastating effect we're seeing on the planet through climate change. Through her work she addresses not only the issues of society's throwaway mindset but also the need to place a plastic veil over our lives, which she believes contributes to our lack of nature and human connection and is causing behaviours within society that are inhumane.

The work uses physical, comedy, movement, theatre and music to tell the story of a dystopian future where humans have become so consumed by plastic that they don't know where their veins begin and the plastic ends. These beings - 'The Plastic Fantastic's' have allowed a consumerist and throwaway culture to form the basis of their society, being influenced and manipulated by a very persuasive 'ring master' Katinko, who's only interest is in self gain, money and power. Katinko's intentions are to lead 'The Plastic Fantastic's' to believe that they are unable to live without the plastic. This changes when one rebel discovers the last living thing on the planet - a flower, which uses it's sweet scent to teach the 'Plastic Fantastic's' to unveil themselves and their world from the plastic coating, that is preventing them from connecting with each other and nature. Ultimately, they realise that their behaviors are effecting and suffocating Mother Earth (represented by the hoop aerial performer) and destroying their race. They learn to work together to rebuild their world, save Mother Earth and each other but will they make it in time before the Climate Clock stops ticking?

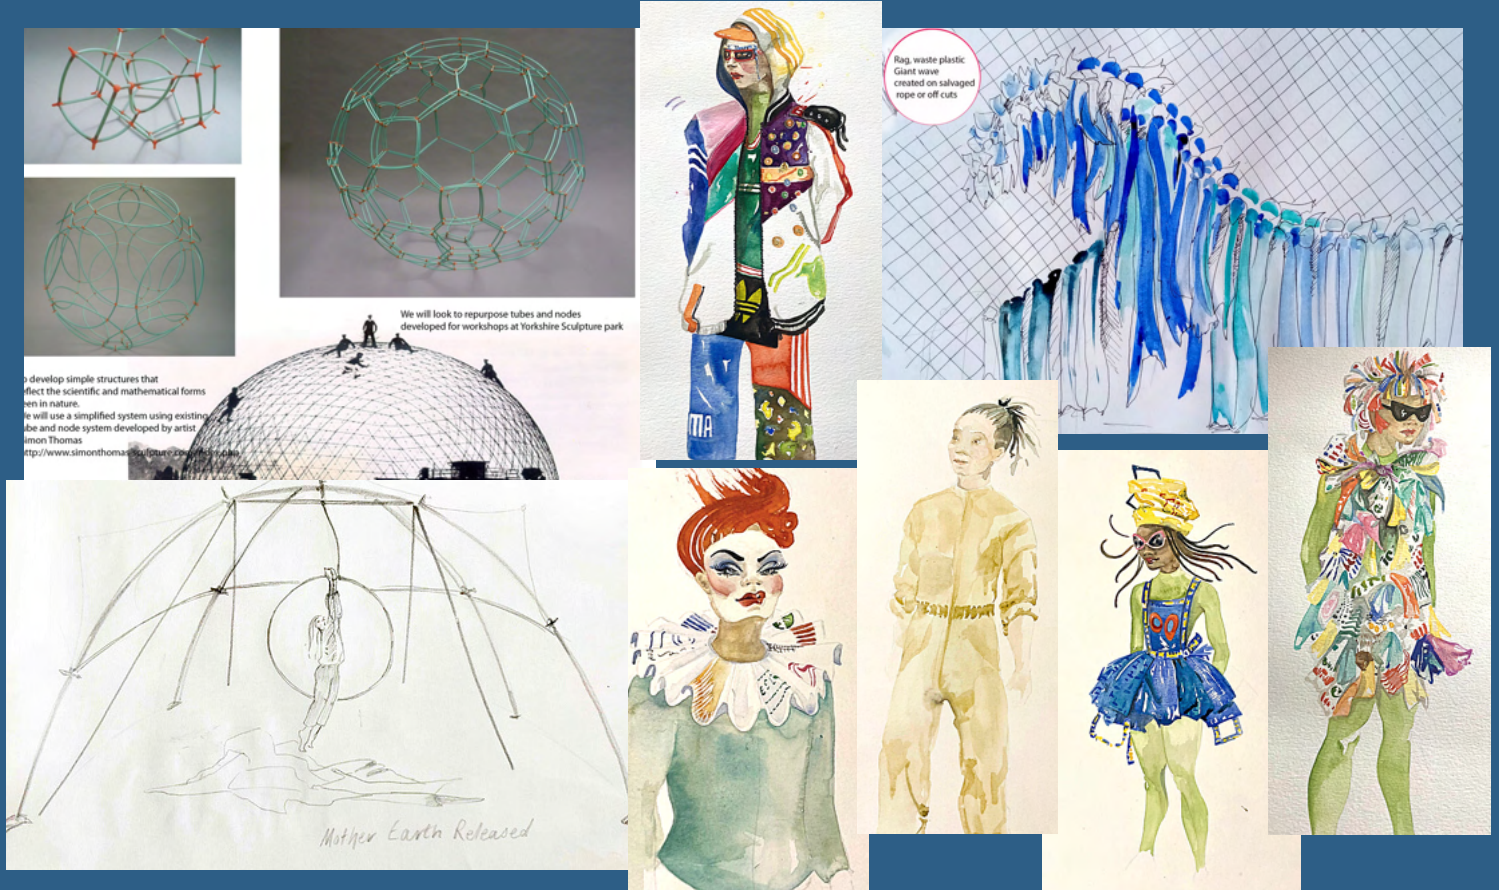

Sioda will work collaboratively with a team of multi skilled and talented artists to bring together an exciting environmental musical.

Visual

Set, Costume, Film and Lighting

Art can inspire action to change and shine a light on single-use plastic, I want to use this strength in the design of this piece. The set design is inspired by works of artists such as Sue Lipscombe's "Bristol Whales" and the Washed Ashore volunteer project, who used discarded plastic to create artwork that highlights the amount of plastic choking the environment. I'll be working with designer Fiona Chivers to bring visual vibrancy and theatrical magic to newly made set and costumes.

Fiona will work with recycled materials and upcycled branded sportswear to make the costumes, the set/props will be built from single use plastic and other materials set for landfill. Following research during a company residency at 101 Outdoor Arts, we discovered the beauty of using fabrics such as old tents and duvet covers, to create moving landscapes and a canvas for exciting projections/visuals. We also concluded that in order not to compromise the visual art design of the set, the main weight bearing structure should be a performance A-frame rig with plastic piping attached that is light, durable and adaptable to create the dome like shape that will also become the installation for audiences to walk through after the performance (sketches above). An aerial hoop (symbolic for Mother Earth) will be rigged to the A-frame.

Performers

- Performers satisfaction with communication, contracting procedures and reception at venue has remained at a high level in 2019, 2021 and 2022.
- Performers satisfaction with logistics and support was similar in 2022 compared to 2021.

Introduction

The sixth edition of *Art in the Park* Festival took place at Jephson Gardens in Leamington Spa on 13th and 14th August, 2022. The festival aims to enable local artists and craftspeople to exhibit and sell their work, as well as programming music, theatre, and dance performances; it also features various workshops and food and drink stalls. Art in the Park is organised by *Leamington Art in the Park Festival CIC*; in 2021, it featured over 200 artists, attracting roughly 32,500 individual visitors.

Earthen Lamp was commissioned by *Leamington Art in the Park Festival CIC* to carry out research and evaluation for *Art in the Park* (henceforth AitP) 2022. The aims of this activity were to gather data and feedback from four separate sets of stakeholders in order to create a detailed report concerning the impact of the festival on various stakeholders. The four groups of stakeholders included in this impact report are:

- Visitors to the event
- Artists exhibiting and selling work at the event
- Performers at the event
- Local businesses

This document reports on and interprets the data collected by *Earthen Lamp* researchers in response to the aims outlined above. The findings of the report are set out in four sections to reflect the different experience of the stakeholders of the event. The final section of the report highlights areas of interest and provides recommendations for the festival organisers. The appendices feature a full list of responses to a series of open questions posed to the three sets of stakeholders consulted.

Methodology

Visitors completed structured surveys collected using an online survey linked on the AitP website and social media profiles. 231 surveys were collected. Online respondents were self-selecting, and we must point out the likelihood that bias can be present in these responses. Particularly strong feelings about the festival, either positive or negative, may have played a part in respondents' decision to complete the survey. The rate of non-responses was not recorded, and it has not been possible to discover whether non-respondents share any characteristics that may suggest bias within the sample.

Artists completed structured surveys collected using two methods:

- An online survey emailed directly to artists; nine surveys were collected in this way.
- A self-completion survey distributed directly to artists at the festival by Earthen Lamp researchers. 110 surveys were collected in this way.

Performers likewise completed structured surveys emailed directly to them. Nine completed surveys were received. **Economic activity** was estimated using methodology used in 2018, 2019 and 2021. Data for the impact figures have been gathered from the festival organisers and spend data has been estimated from visitors to the event collected through the online form.

The Code of Conduct¹ prescribed by the Market Research Society has been used to inform all data collection and processing phases of this research.

¹ The MRS Code of Conduct has been in existence since 1954 and regulates research practices associated with market, social and opinion research. The Code of Conduct is largely built around the principles of the Data Protection Act and is a voluntary code that guides the practices of the market research industry; it also incorporates the principles of the European Society for Opinion and Marketing Research Code of Marketing and Social Research Practice.

Research findings: Visitor experience

Visitor activities at the festival

The most frequently mentioned activity visitors took part in was eating or drinking (78% of respondents), followed by listening to a music performance (67%). The third and fourth most popular activities were buying art or craft (52%) and watching a dance and/or theatre performance (45%). The responses are very similar to 2021. Around a fifth of respondents (22%) indicated they took part in a workshop or arts activity.

Only 4% of respondents took part in a community art project, and 1% commissioned art or craft. 2% of respondents indicated they engaged in all of the activities listed, while 3% of respondents indicated they did not take part in any.

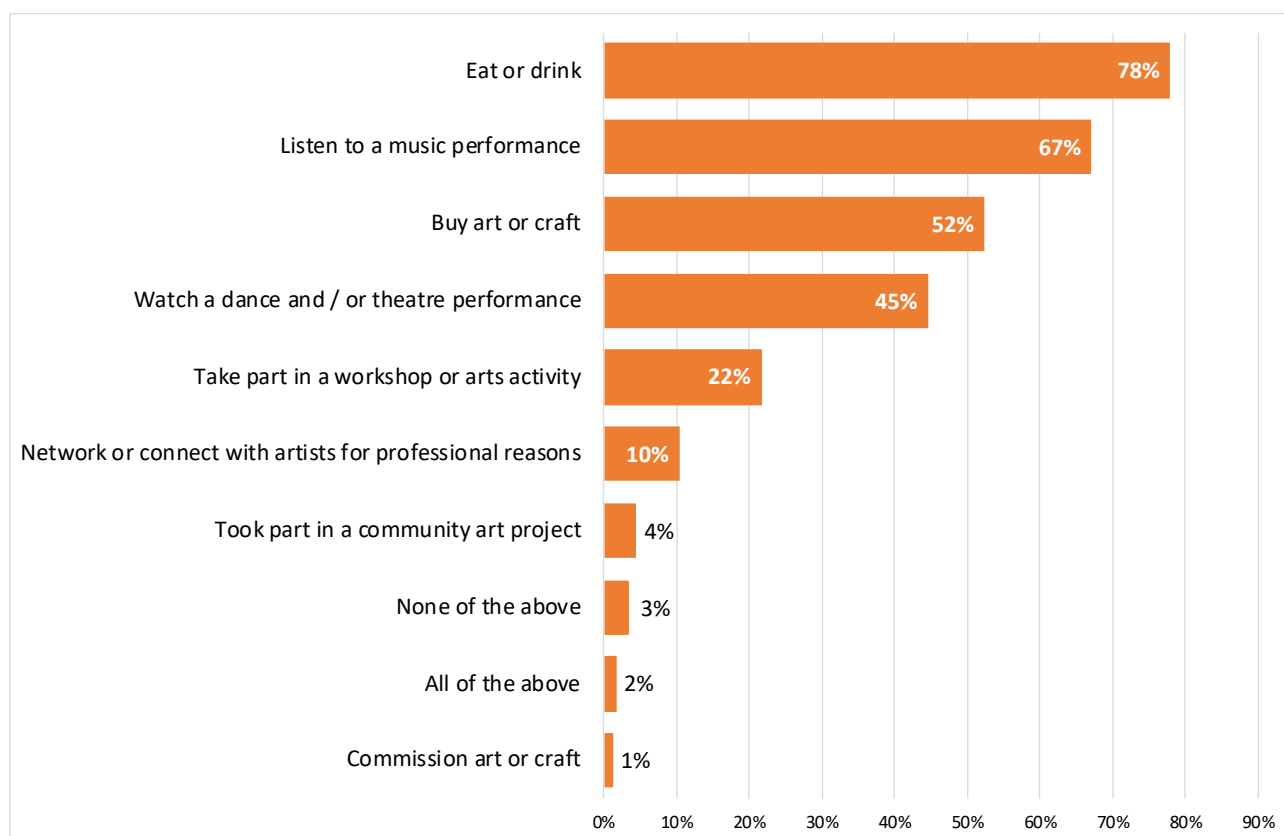

Figure 1 What visitors did at AitP 2022

Note: As respondents selected more than one response, percentages do not add to 100.

Visitor motivations to attend

The most frequently mentioned motivations for attending AitP were 'to spend time with friends/family' (54%) and because '[respondents had] been before and enjoyed [their] last visit' (54%). 40% of the respondents indicated 'to be inspired' as a motivation, and a third wanted to 'do something new/out of the ordinary'.

The opportunity to take part in specific activities was less strong as a motivator: 33% of respondents attended ‘to listen to live music’, 10% ‘to see a dance or theatre performance’, and 12% ‘to buy something in particular’. 19% of respondents were motivated by AitP or the artists’ reputation.

Only 2% of respondents reported being part of an organised group, and another 3% came across it by chance. 4% of respondents listed motivations that were not featured in the main list; these included performing artists, good reputation of the festival, the location and love for art.

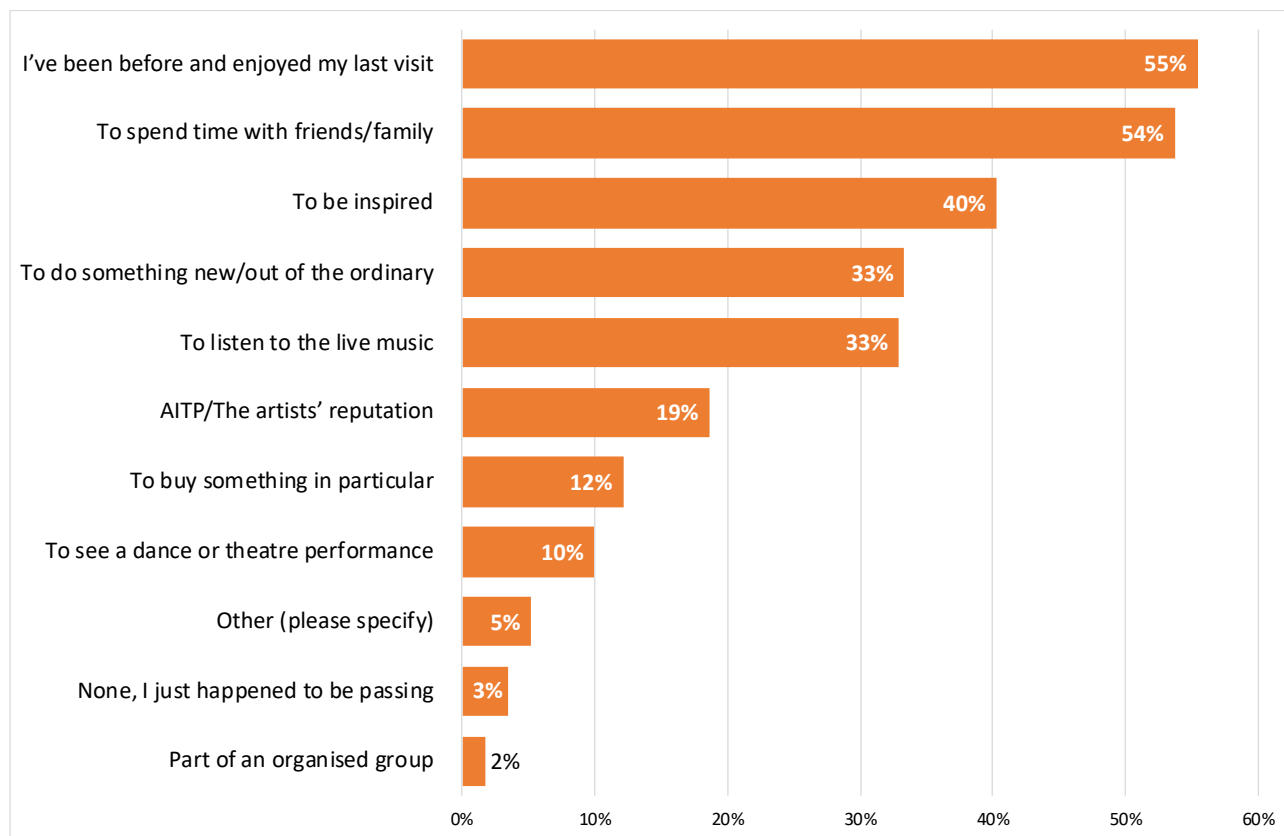

Figure 2: Visitor motivations to attend AitP 2022

Note: As respondents selected more than one response, percentages do not add to 100.

Visitor perceptions of quality

Visitors were asked to rate aspects of their experience at AitP from 1 (very poor) to 5 (very good).

Based on your experience, how would you rate the following?	Average 2022	Average 2021
Your overall experience of Art in the Park	4.75	4.63
Quality of the exhibiting artists	4.69	4.19
Information about the event and signage	4.49	4.21
Quality of the music performances	4.35	4.19
Quality of the dance or theatre performances	4.28	4.15
Information before the event	4.18	4.07

Quality of the workshops	4.18	4.19
--------------------------	------	------

When asked how likely they would be to recommend AitP to a friend or colleague (with 0 being very unlikely and 10 being very likely), respondents provided an average rating of 9.5 (2021: 9.3)

The visitors provided the festival a Net Promoter Score (NPS) of 81.82. (as compared to 81.92 in 2019 and 74.64 in 2021).

Perception of new offers

Visitors were asked if they noticed or used any of the SEND and accessibility focused offers at Art in the Park this year, figure 3 shows a breakdown of the responses by frequency. Nearly half of the respondents (47%) had not noticed any. 42% of respondents noticed British Sign Language Interpretation used on stage.

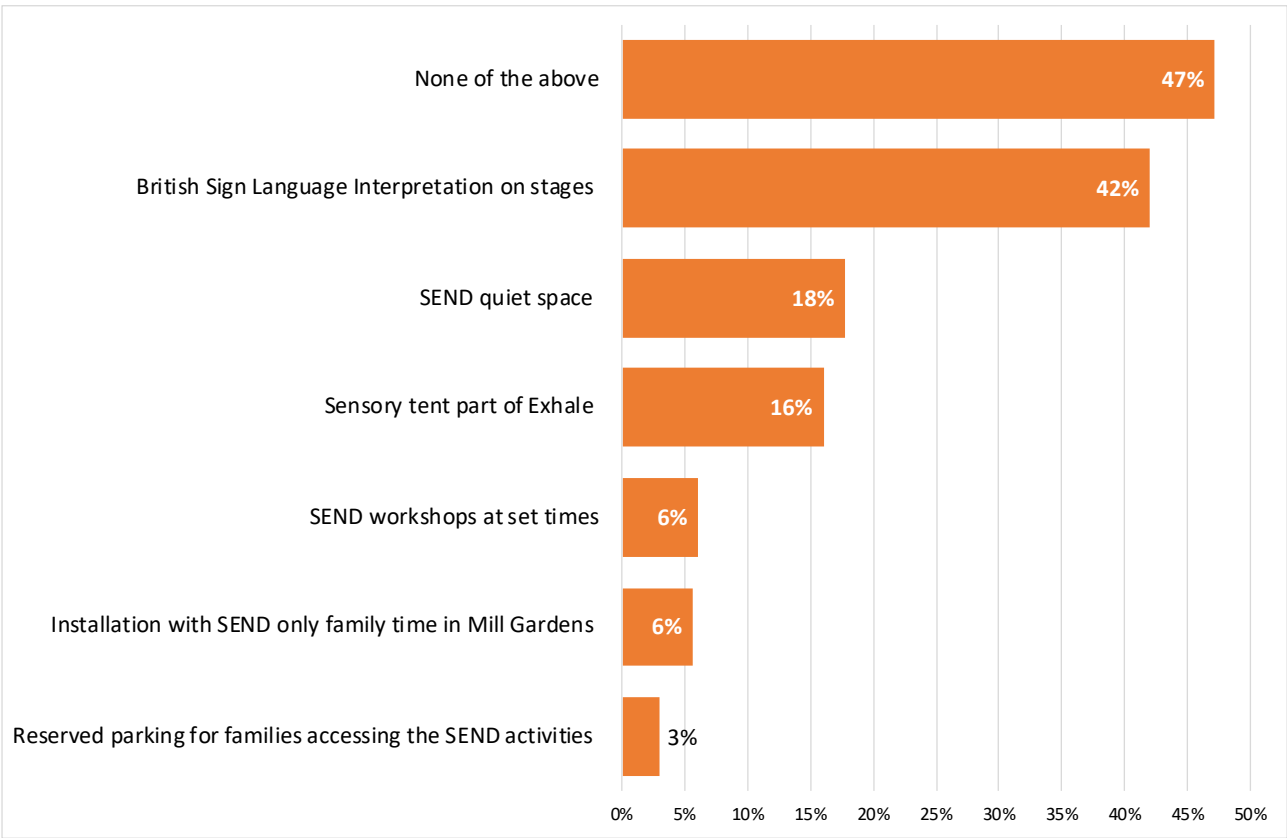

Figure 3: Perception of new offers at AitP 2022

Note: As respondents selected more than one response, percentages do not add to 100.

Experiences of SEND families

23 visitors completed feedback postcards that asked them how the SEND activity they participated in at the festival had made them feel.

The vast majority of the responses (20 out of 23) were positive, with “happy” and “calm” being the most popular emotions used on the postcards. One visitor wrote they felt “good and happy, having a fun day

jumping.” Many visitors mentioned the activities they enjoyed, with the circles and spinning disks standing out as it was mentioned five times.

Visitors enjoyed the “relaxed, calm, peaceful and happy” atmosphere in the tent, others appreciated that the type of activities offered. One parent appreciated that the “interactive activity which was open ended with no expectation. This really helps my children to participate.”

A number of suggestions were made for improvements for the future. Two visitors felt that the SEND activities were not well-signposted on site or the map and they therefore struggled to find the tent on the day. There was a suggestion for more supportive seating to be provided to assist those with poor trunk control. One visitor felt too anxious to enter the activity space and would have liked it if activities could have been brought outside to them, whilst another disliked the use of the term SEND as a description for the activities.

Earthen Lamp also spoke to three parents of children with additional needs to gather their in-depth feedback on the SEND provision at AitP.

Two of the families had very positive experiences of the festival and praised the range of activities that their children took part in.

“We are grateful that it is run in the area we live in because it makes us feel proud to live in that area.”

One parent’s three-year-old daughter particularly enjoyed the art installations, most notably one in the fountain with floating animals. She commented on the organic nature of this installation, which allowed children to play freely with the animals in the water.

“One of the people doing the artwork indicated he had used in one of his photography scenes and he’d put them there and so the children were playing them, lining them up. It was quite organic really.”

This parent visited the festival on both days, using the second day to visit specific workshops and activities for children that they had seen advertised whilst wandering on the first day. They visited the workshop tent and enjoying painting, playing with playdough and playing the spinning vinyl disk installation. The family had visited the festival before, but this was their first visit with their daughter, and they felt she had really enjoyed it.

“She loved it. She loves being out and about and seeing the music and everything that was going on.”

The visitor praised the fact that lots of activities for children, including the art installation, were located in the shade, as this helped them to cope with the hot weather. A suggestion was made for more child-friendly food options.

“There wasn’t anywhere that was particularly selling either smaller children’s portions or particular food targeted at children so that made it a little hard finding her something to eat.”

Another parent, with an eight-year-old child with additional needs praised the activities on offer for children at the festival. Her son particularly enjoyed the magician in the activities tent.

“There was a guy there that had glass balls that he was moving without using his hands, they were floating. He was mesmerised by those.”

They took part in other activities such as colouring and playing with remote control cars and then participated in a pre-booked art workshop using acrylic paints. She commented that they have the finished artwork hanging in pride of place in their house. This was the family’s first visit to AitP and they found out about it through Facebook. They visited the sensory tent with their one-year-old daughter and appreciated the activities there.

“She was playing in there with some bubbles, and I think some fidget poppers in there as well. So there was something for everybody”

The third parent who was interviewed has a twenty-three-year-old son with additional needs and did not find the festival suitable for his needs. The family has been to AitP many times before and has appreciated many of the changes made over the years to make the festival more accessible, such as the BSL signing, and the relocation of the food stall and stages that have made the festival more spacious and less crowded. She was particularly disappointed with the festival programme which promised SEND areas, ‘throughout the festival site’ but there was only one shown on the map. The mother visited on the first day of the festival to scope out what was available for her son. However, she felt disappointed with what she found.

“Our experience of finding what was supposed to be there wasn’t great and because it was so hot and because of what we found we didn’t take him on the second day, when we might have done.”

She was underwhelmed and disappointed by her visit to the SEND activities tent. The location of the tent, next to the main stage, also meant that it would have been too loud and busy for her son. She also struggled to find the art installation and was disappointed by the lack of help from festival staff, who could not help her locate it. She thought it did not look as described and was too small to fit a wheelchair inside, making it impractical for her son.

Her suggestion for further improvements is to provide clearer and more detailed information about what is provided and to have bigger spaces, in a quieter location, that cater for adults with additional and sensory needs, not only children.

How visitors found out about AitP 2022

Visitors were asked how they had found out about AitP, and figure 4 shows a breakdown of the responses by frequency. Facebook was the most frequently cited source of information (41%) (2021: 60%), followed by word of mouth 32% (2021: 30%).

Information material

Visitors were asked which of the following material they used for information about the festival. Over half of the respondents (63%) used the printed paper brochure, a fifth (21%) used the online PDF version of the brochure and 16% used the app. A quarter of the respondents indicated they did not use any of the informational materials.

What did audiences like best about Art in the Park 2022?

Art in the Park audiences widely commented on the positive atmosphere created by the festival. Attendees noted that the festival brought the local community together, created a “nice environment for families”, and felt “friendly” and “relaxed”. One respondent wrote, “The atmosphere was absolutely great and you could see everyone was enjoying themselves. Loved the music, variety of art and stalls and workshops; just loved the whole experience.” The Jephson Gardens and Mill Gardens location was noted by some attendees as the best thing about Art in the Park, particularly because the event “uses the whole park, the art bleeds into the surroundings”. One attendee indicated that they felt safe in the park: “The whole experience and atmosphere. It is nice to be with people because I live on my own but come every year. I feel safe at Jephson Gardens so came on my own today.” Overall, the atmosphere was understood as safe, friendly, and buzzing. The variety of art exhibited was the other feature of the festival which dominated answers to this question. Attendees praised the “huge range of exhibitors” and “such a variety of food and entertainment”. One respondent noted that their favourite part of Art in the Park 2022 was “The number and variation of artists, and the fact that there were different levels of experience. Great talking to people who have newly made art their profession, very inspiring.” Many attendees felt that engaging with the art itself was the best part of Art in the Park 2022, with one writing, “It was wonderful to be surrounded by so much creativity. I found the whole weekend exciting and inspiring.”

Live performances were mentioned by several respondents as their favourite feature of the festival, with some commenting both the musical performances and the food offering. It may be, then, that there is a particular audience group who attend the festival with a key focus on enjoying music and refreshments. The workshops and stallholders were also listed as favourite elements of Art in the Park. Some respondents named specific performers, workshop hosts and stallholders as highlights of their day.

With the variety of activities available at Art in the Park 2022, a small number of attendees highlighted the low cost and free entry as the best thing about the event. These commenters frequently noted that their families could participate in lots of activities, such as “free workshops for kids” in one place for no or minimal cost. “It’s a great day out for my large family with plenty for us to do for a relatively small cost. We love coming and having a go/experiencing different art mediums.”

What improvements to Art in the Park would audiences like to see?

Respondents offered a range of suggested improvements, but two categories were particularly dominant. Many attendees requested additional shaded areas and seating areas; requests for shade no doubt influenced by the extremely hot weather during Art in the Park 2022. Specific seating requests include “More shade by the bands” and other events, and “extra places to sit to eat food”.

The other dominant theme of suggested improvements was the information provided to attendees. Several attendees commented that they struggled to find the locations of various stalls and offered suggestions such as “Have big very clear boards around the place that say what workshops are on and when because it was a bit difficult to find them and think about what was on and when.” Similarly, some audience members found it difficult to understand which events required prior booking or incurred a cost, with one attendee commenting that it “was hard to know what kids’ activities were free and what needed to be booked in advance”. Several attendees also found that the booking system was difficult to use; one attendee remarked “the App was terrible as difficult to download, no times were specified and hard to locate events on the App”.

A small number of respondents commented that the exhibitors and musicians could have been more varied in the genres, subjects and forms they worked with. One attendee noted, “Make it more diverse. Artists were predominantly white, female and all producing similar style of work. Would have been good to see less painting and prints. More craft and design.”

Other areas of suggested improvements received significantly fewer responses. These included:

- Clearer signposting of local parking spaces, or dedicated parking for event attendees
- More water refill stations, including dedicated water stations for dogs
- More toilets
- More litter bins
- Specific requests for food outlets: vegan food, pizza, hog roast, jerk chicken, a cold drink stand, and children’s drinks that aren’t fizzy
- Specific promotion of the SEND activities
- Event promotion on local social media pages and groups
- Varied remarks on the size of the festival. Although some attendees wanted more stalls, others preferred a smaller event

Other comments by audiences at Art in the Park 2022

The majority of additional comments left by audience members at the end of the survey were general messages of support and praise, such as “This is the best thing to do in Warwickshire in my opinion and we very much look forward to it every year!”, “Amazing festival. Every year the festival organisers deliver high quality artwork and music. Very impressed.”, and “Feels like a very inclusive event. We brought elderly relatives and could, thanks to the open space, bring chairs and blankets to have a base.”

Of the other comments left by audience members, many offered additional suggestions (discussed in “What improvements to Art in the Park would audiences like to see?”). Several attendees commented on the festival facilities, in particular the availability of water in the hot weather. Although attendees were pleased with the water stations provided by Art in the Park, there were requests for more water points and clearer signs directing people to these stations.

A small number of respondents felt that the exhibiting stalls lacked variety and particularly noted the prevalence of jewellery and landscape art at the festival. Local artists, ceramics, sculpture, and work by a greater diversity of artists were listed as features that audience members would like to see at a future festival.

Visitor demographics

There were far more female than male respondents; the former accounted for 81% of the total number, and the latter for 18%. 2 respondents preferred not to answer.

12% of respondents reported having a health problem or disability lasting at least 12 months. 87% did not identify as disabled, and the remaining 1% preferred not to respond to this question.

Nearly third of respondents (29%) belonged to the 35–44 age group. The second and third largest groups were the 55 to 64-year-olds (22%) and the 25 to 34-year-olds (18%). 13% of respondents were 65 or older.

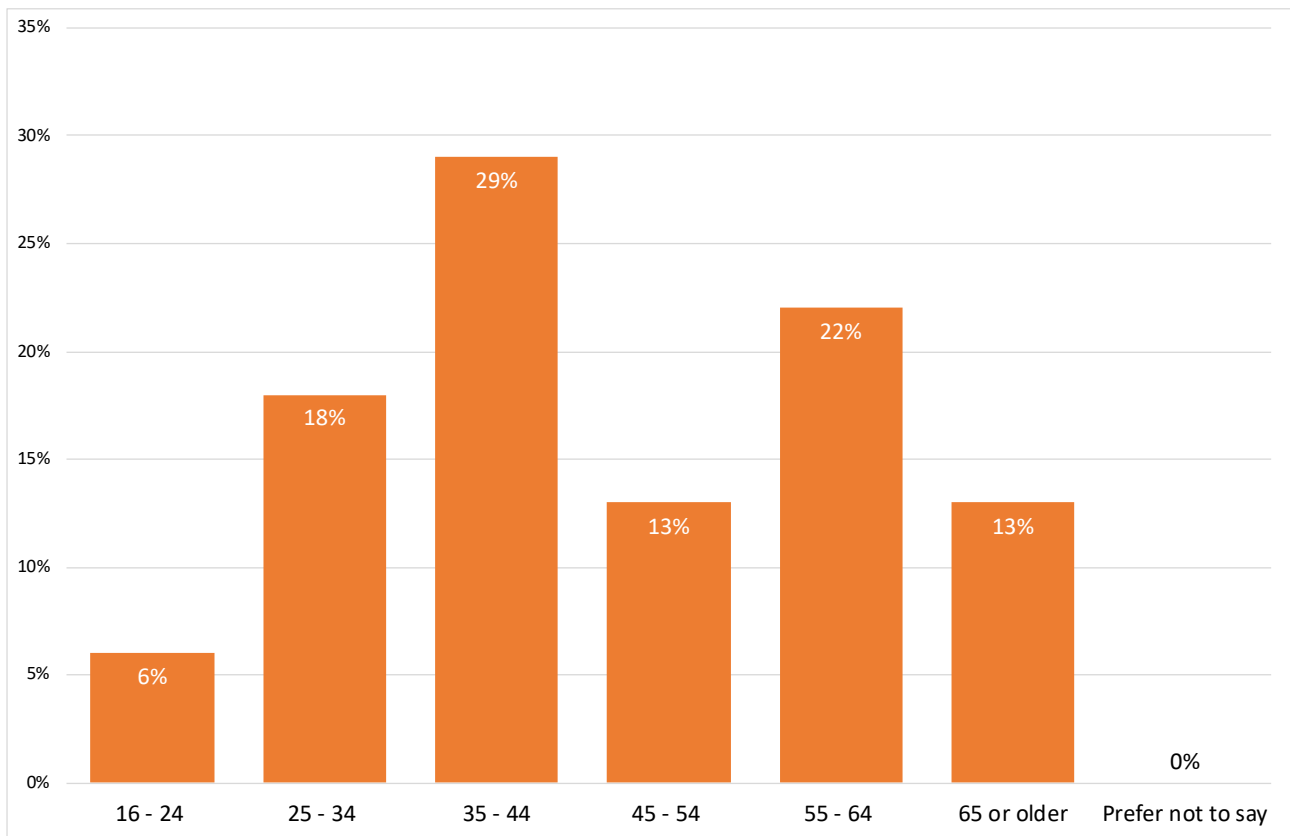

Figure 6 Visitor profile by age 2022

In terms of ethnicity, more than four fifths of respondents (82%) identified as White British; a further 8% identified as having another white background. 6% of respondents identified Asian or Asian British. 1% identified as mixed or belonging to multiple ethnic groups and 1% as Black or Black British.

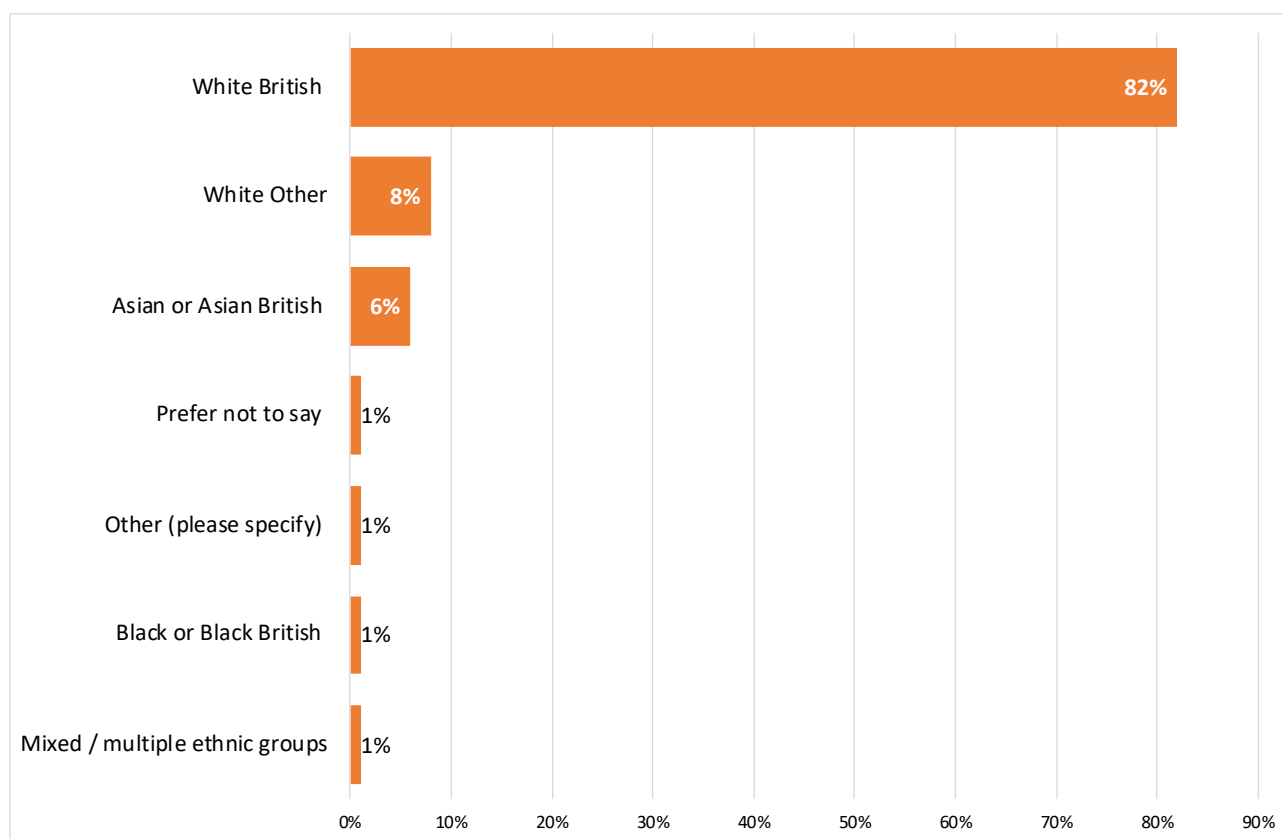

Figure 7: Visitors' ethnicities 2022

How far visitors travelled

Overall, more than half of the total respondents (40%) indicated that they live in Leamington Spa. Out of the respondents that do not live in Leamington Spa, most came from other locations within the CV postcode areas (42%). Other respondents came from elsewhere in the West Midlands (7%), from the East Midlands (5%), or from elsewhere in the UK (5%). Less than 1% indicated they live outside of the UK.

Just under a third (29%) of respondents visited the event on both days. The majority of two-day visitors (64%) were Leamington residents.

More than half (60%) of the respondents who do not live in Leamington planned their trip specifically to attend AitP, demonstrating that the festival is successful in attracting out of town visits.

6% of the respondents who had travelled to Leamington Spa indicated that they had also stayed overnight. Of these, half (7 out of 13) stayed with friends or relatives, while the others stayed in paid accommodation.

Research Findings: Artist experience

This section highlights the insights gained from the artists survey. A full list of responses to all questions about the artists' experiences of the event are included in the Annex.

Thoughts and recommendations

Artists provided a wide variety of comments and suggestions following Art in the Park 2022. Some comments referred to individual issues and queries, although there were several key thematic areas of commentary.

A significant number of comments referred to the Mill Gardens location. Many of these comments suggest that there was insufficient signage to encourage attendees to visit Mill Gardens. One artist with experience of exhibiting in Mill Gardens and Archery Lawn commented that their experience was that "Mill Garden is tucked away, without signage or announcements from the stage, that we heard down there - and most definitely not as profitable for stall holders." Several stallholders suggested rotating artists between Mill Gardens and Archery Lawn, with Archery Lawn understood as the preferred location.

The signage and information provided to artists and audiences were widely mentioned in artist comments. Multiple respondents commented that audiences struggled to find stalls, and suggested that numbers on the stands would be helpful for navigation – though they also suggested that different numbers for Archery Lawn and Mill Gardens would prevent confusion. One respondent suggested "numbers for all the gazebos to match the map as members of the public were asking where certain numbers were, and stall holders didn't know." Similarly, another artist requested that it "would be good to inform stall holders of free self-directed activities for us to promote", such as the Letter Trail. The app was a source of confusion for visitors and for artists, with one artist commenting "if this was used again next year we wouldn't attend."

The festival set-up was commented on by several artists. Some found that they didn't have sufficient time to set up their stalls, while others noted that entry to Mill Gardens "caused quite a lot of local traffic and was difficult to find on the Friday". However, artists praised the support they received from the event team during the set-up.

Additional comments include:

- Artists are concerned that if the event grows in size, it may negatively affect their sales (in part owing to audiences potentially finding the event "overwhelming") and place a "strain" on the event team.
- Several artists queried the requirement for public liability insurance for pop-up stallholders, with one commenting "it would be good to review whether pop up artists really need public liability insurance. It more than doubles the cost of attending".
- Several comments suggest that some artists struggled to find water points.
- The artist-only toilet was appreciated, although one respondent noted that "the bathrooms need sequel top ups of toilet paper through the day, because they ran out fast and they aren't topped up", and others requested toilets closer to the various stall locations.
- Stallholders on the promenade appreciated being located in the shade and would benefit from this in future.
- Artists appreciated the roaming performances.

Artists' perception of festival and experience

As may be expected given the extremely hot weather during Art in the Park 2022, many comments from artists note their experiences of the heat. Several stallholders noticed a lower footfall than previous years, which they attributed to the hot weather. However, others felt that there were “no major quiet spells” and experienced “a fab buzzy atmosphere”. Some respondents noticed that “the clientele has shifted with less intentional fine art buyers” and found that, despite the footfall, they didn’t attract as many sales as they had anticipated.

The event atmosphere was praised as friendly, buzzing and welcoming. One artist described Art in the Park as a “fantastic summer free arts festival with a really great feel-good vibe”. The event team were similarly described as friendly, and several comments specifically noted the “great volunteers”.

In general, artists were pleased with the festival organisation, although some found that the set-up was “slow”. One artist praised the festival organisation in the hot weather, commenting that “the heat was an unforeseen hurdle that was difficult to navigate, but despite that, the vendors, staff and volunteers still functioned to the best of their ability.”

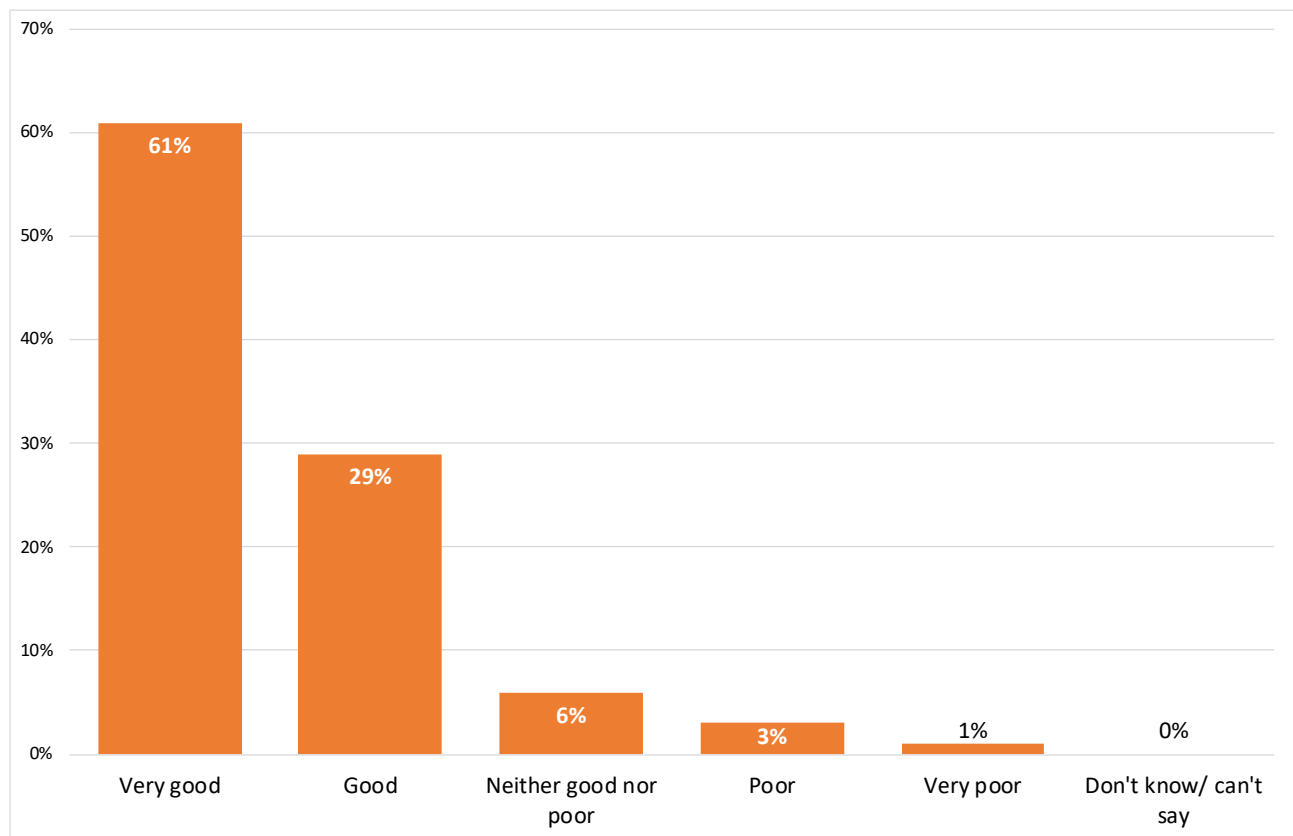

Figure 10: Artists' experience at AitP 2022

The artists provided the festival a Net Promoter Score of 55.45.

Stall location and festival area

Many comments about the location of artists' stalls were positive. Some provided the suggestion that stalls be situated East-West rather than North-South in order to protect stallholders from the sun.

In general, stallholders situated on Archery Lawn were happy with the “excellent location”, owing to the “good flow of footfall”. Artists who were situated in a shady location commented on this positively. The Archery Lawn location was very well received and was understood by artists in Mill Gardens as having greater footfall and as the preferred site for many stallholders.

Stallholders located in Mill Gardens widely commented that footfall was low, or lower than perceived at Archery Lawn. Several respondents commented that some audience members seemed surprised to discover Mill Gardens, with one artist noting “I’m not sure people found their way over to Mill Gardens” and another writing “When I spoke to some pedestrians quite a few were unaware of the Mill Gardens part and literally stumbled on it.” Some stallholders in Mill Gardens suggested that stalls could be rotated between the two sites as they perceived Archery Lawn to be busier and noticed some artists exhibiting in the same locations as they had in 2021. One stallholder wrote, “We all went on a scout round over the weekend and it seemed like the same artists were back in Mill Gardens. We could be wrong but it would be fantastic to let Mill Garden stall holders have a turn in Jephson Gardens, and vice versa.”

There appears to be a significant proportion of the respondents who were located in Mill Gardens who felt that the site had limited signposting from Jephson Gardens and received a lower footfall than Archery Lawn. This perception was expressed by one stallholder that “having spoken to other stall holders, they have been more successful in Jephson Gardens & it was a lot busier there which is disappointing when it wasn’t busy here.”

Stallholders located on the promenade were broadly positive about their experience, although some found that they had limited shade. Some artists commented that they preferred being located in groups alongside fellow artists. One artist noted the limitations of being located near the park entrance, commenting that “it was an excellent position wrt the weather and I had lots of footfall. But few seriously interested visitors made buying decisions with still the bulk of the event ahead of them. Only a few of them returned to buy.”

Staying and eating out in Leamington

The majority of artists 81% did not stay overnight in Leamington Spa (2021: 84%) , 7% stayed with friends or family and 12% stayed in paid accommodation.

Promotion of participation

Like in 2021, Instagram (86%), word of mouth and emails (80%), and Facebook (78%) were very popular sources through which artist promoted themselves and their work. Instagram has further increased in popularity (2021: 81%; 2019: 70%; 2017: 55%). Only 3% used printed flyers or posters to promote their work and participation in AitP 2022 (2021: 11%). Some of the other responses provided by artists were the artists’ own website, workshops and newsletter.

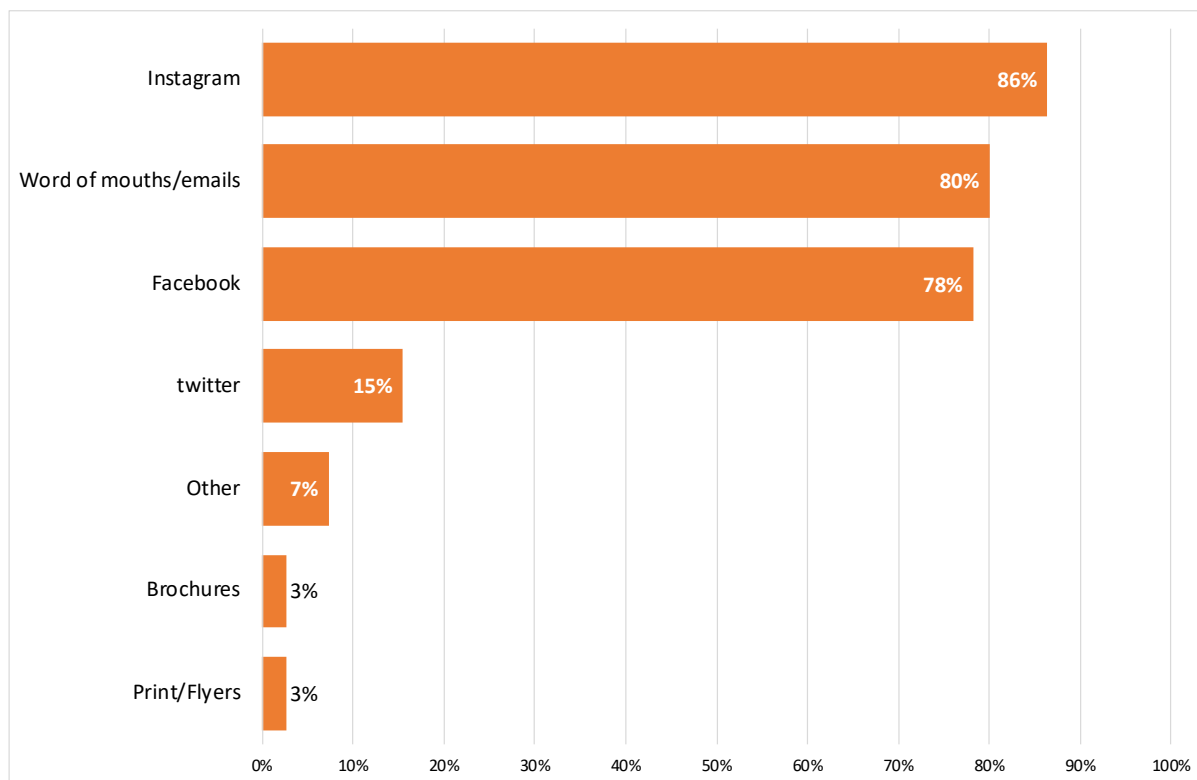

Figure 11: Source of promotion by artists 2022

Artists' characteristics

Among the artists who participated in the festival 30% are full-time artists (2021: 28%), whereas 36% (2021: 35%) indicated that less than 25% of their income derives from their artistic practice.

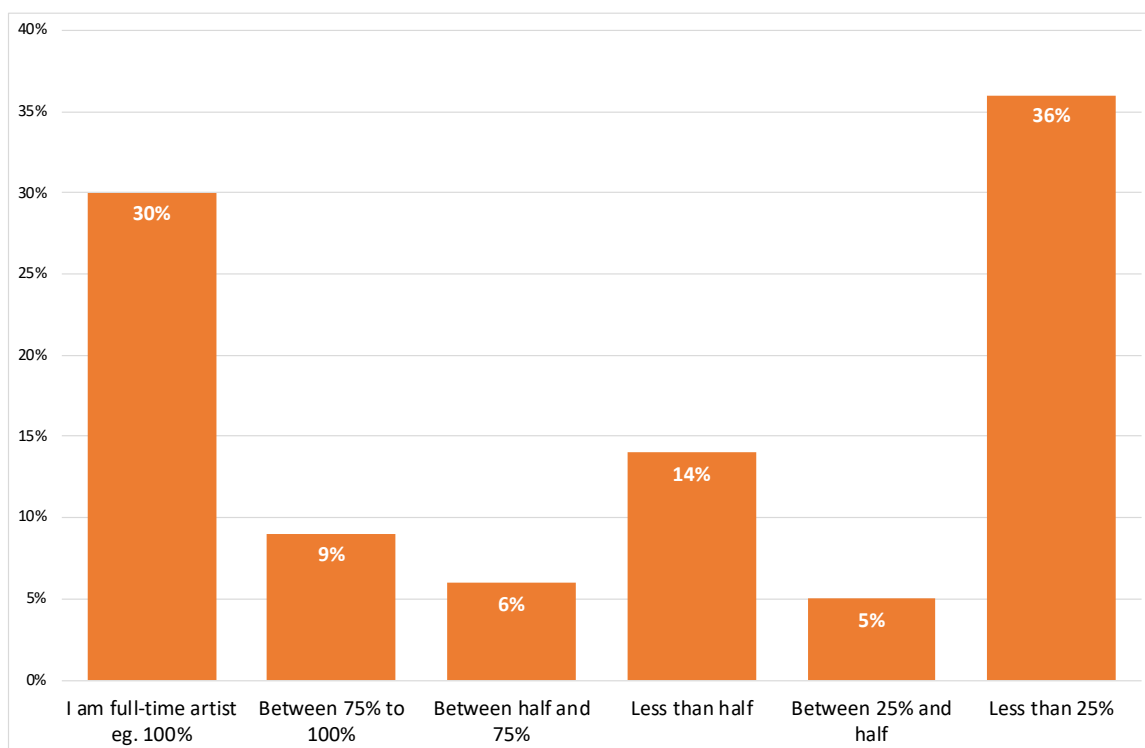

Figure 12: Artists' income derived from artistic practice in 2022

Artists' income

Nearly all respondents provided information on the number of sales, mostly in form of identifying a range. A very conservative estimate of total of the actual sales figures provided by 103 artists was about £73,000. On average a conservative estimate of sale per artist is around £711. The graph below shows the distribution of artists across the sales brackets.

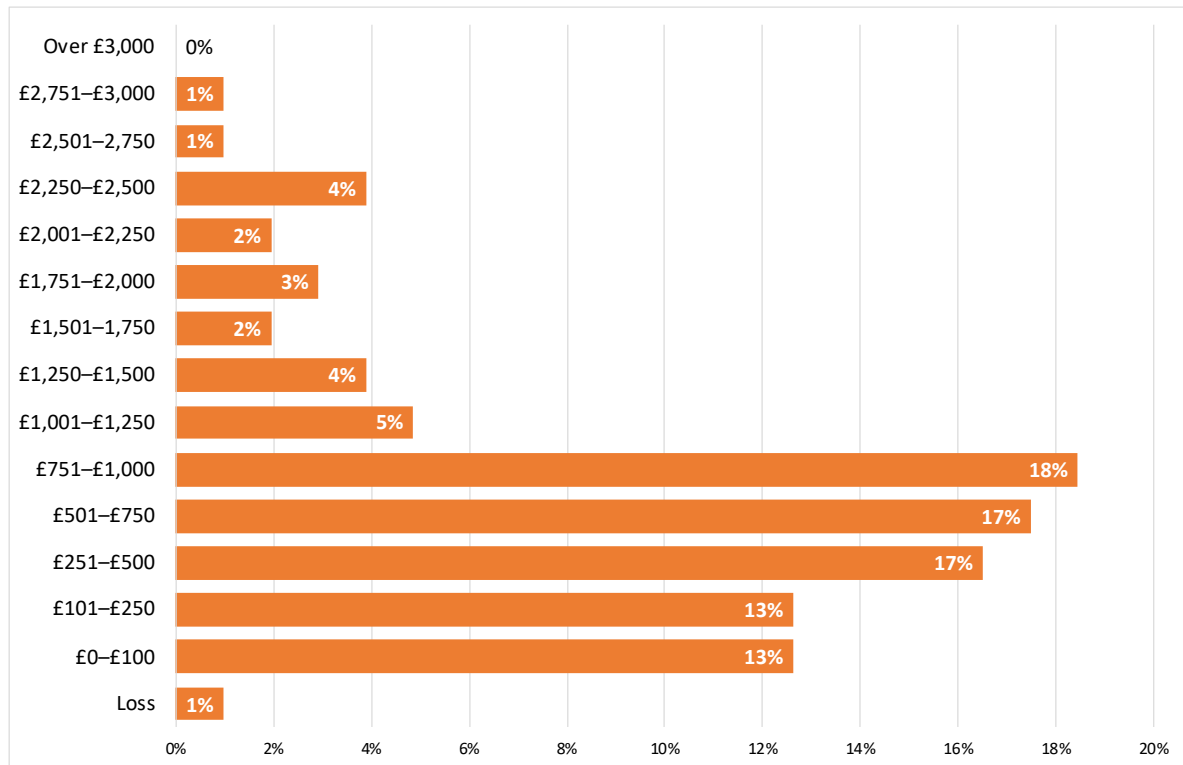

Figure 13: Total value of sales during the festival

When asked if they had had any conversations with visitors about future commission(s), over half of the artists answered yes (47%), and 45% might receive a commission after the event. 7% did not have this kind of conversations.

Artists that had attended other events and fairs were asked to compare sales at AitP 2022 with other events. Nearly a third of the artists (29%) indicated they sold more at AitP than at other festival, which is significantly less than in 2021: 45%), about a quarter (26%) sold more at AitP, another 17% indicated they sold about the same.

Other responses:

- Ain't better/ Not been to many but more that WOS
- As I was attending as a Workshop, sales were drastically down. But sales of two large display pieces were best in recent times!
- Better as I do corporate and private parties.
- Can't really compare as it's a different type of event.
- First time at AITP

- I do local artisan events and although better sales on the day at Art in the Park I have to deduct a lot more expenses ie petrol & hotel and food costs, which reduces the difference. However overall Art in the park had better sales
- Some more, some less.
- We have not taken part before and don't really have a product as such to sell. We wanted to raise our profile and promote membership.

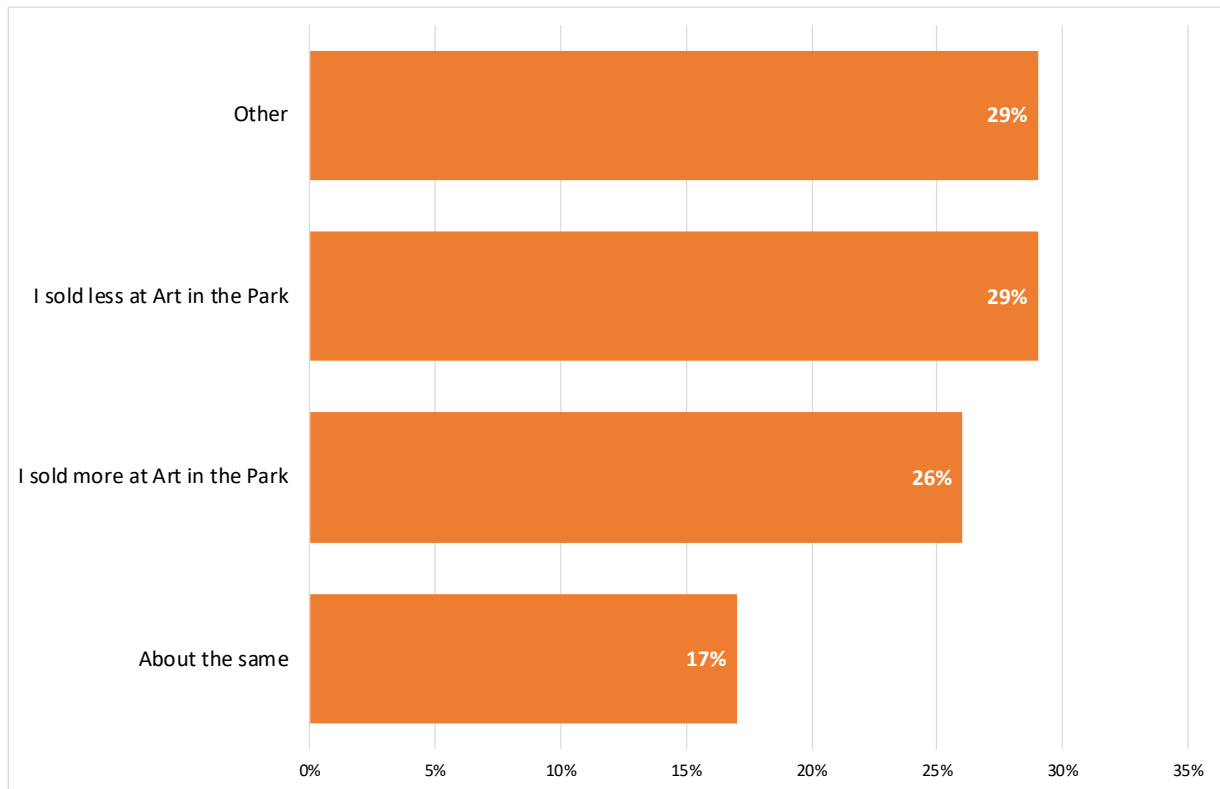

Figure 14: Comparison of sales to other festival

A larger number of artists have attended other festivals, markets and fairs over the past years. Warwickshire Open Studios (WOS) stood out as about a third of the artists at AitP 2022 took part in WOS in the past.

Hot weather measures

The artists were satisfied with the hot weather measures. When asked about hot weather measures at AitP, over half of the artists indicated they were very good (55%) or good (37%).

Research Findings: Performer experience

Performers were asked for feedback on aspects such as communication, logistics and support, facilities and comparison with similar festivals and events. Responses were received from nine individual artists and companies that performed at AitP 2022. The full list of comments can be found in the Annex.

Communication with the festival team

All performers rated communication with the festival team before and after the performance as “Good” (4 respondents) or “Very Good” (5 respondents). Respondents reported that communication was helpful and efficient and that they felt looked after by the festival team. There were varied responses to the timeliness of information. Although two respondents noted that information was delivered to them in good time before the festival, three respondents felt that key information or festival materials (marketing pack, feedback forms) were sent late.

Reception at the venue on the day of performance

All performers rated their reception on the day of their performance as “Very Good”. Performers praised the professionalism, friendliness and responsiveness of the festival team. Four respondents specifically noted that they were well looked after by Yas, Frankie and Hannah.

Logistics & support & facilities provided by festival team

Eight respondents rated the logistics and support by the festival team on the day of the performance as “Very Good” and one rated as “Good”. Five respondents rated the facilities provided by the festival team as “Very Good”, three as “Good” and one as “Neither good nor poor”.

The same respondent rated the logistics and support as “Good” and the facilities as “Neither good nor poor”. In later comments, this performer states that their experience could have been improved with “earlier communication on logistics”, particularly risk assessments and safeguarding, specific support for young performers such as “somewhere to store personal belongings”, and advance information on the support available for performers and workshop leaders on the day of their activity.

Comparison with other similar festivals and events

In general, performers felt that Art in the Park was on par with or better than similar events. Several attendees noted that they felt accommodated and that they were provided with everything they needed alongside wristbands to access free food and changing space with towels and water included.

One respondent noted that they felt as though they were forgotten by the festival organisers, stating “I felt we could have been given similar support to other performing artists e.g. a space to put our things, somewhere to take breaks/rehearse” and that they weren’t provided with wristbands. They also commented that they would have appreciated support from Art in the Park regarding participant safety in the hot weather.

One performer recommended that Art in the Park invest in a higher quality PA system as some sound was lost through the speakers. Another suggested having additional gazebos for shade, and more refreshment stalls.

The best thing about Art in the Park 2022

Several different features were named as the best thing about Art in the Park 2022. Multiple respondents listed the atmosphere and response from festival attendees as particularly positive. Two noted that the selection of activities on offer was the best thing about the festival, with one stating that there “seemed to be something for everyone at this festival which felt extremely inclusive”. One performer commented that many in their group hadn’t performed in front of a crowd before, so seeing them perform at such a large event was a highlight of the festival.

Improvements for Future Performer Experiences

Several suggestions were made for improvements to the performer experience:

- Clarity regarding the role of the on-site photographer, particularly with regards to whether they would be photographing performances
- Information regarding the logistics and practicalities of the event to be provided earlier, including information as to the material and practical support available for performers
- Specific support for young performers, such as communicated safeguarding plans and a specific person as the lead on this, a chill out space and storage area
- A map showing where performers could park, and a parking permit
- Bottled water and food vouchers for performers
- Some information that had been emailed to performers was sent to their spam folders

Future participation

All respondents stated that they would consider returning to Art in the Park. Most responses were very enthusiastic; performers indicated they “really enjoyed performing here”, “the team are so friendly”, and the festival had an “amazing audience, festival team, location and atmosphere!”

Likelihood of recommending Art in the Park

Respondents were asked to rate on a scale of 1-10 their likelihood of recommending Art in the Park to a colleague or friend. Seven performers rated their likelihood of recommending the festival as “10”, one as “9” and one as “7”. This translates into a Net Promoter Score of 88.9.

Other improvements and recommendations for the future

Only two areas for improvement for future iterations of Art in the Park were given. The first was that “the sound quality for the microphone that was used to introduce the music acts at the clock tower was really poor”. Another respondent requested that feedback forms be provided earlier. Other comments included that the festival was fun, fantastic and enjoyable

Research Findings: Economic Impact

Introduction

The economic impact of AitP 2022 has been estimated using income and expenditure figures collected from the festival team, combined with visitor spend figures collected through the surveys.

The estimation is based on the methodology derived from The Economic Impact Toolkit developed by West Midlands Cultural Observatory (2011).

Margin for error

Based on a total sample size of 231 visitor surveys, there is a margin for error of (+/-) 6.43% associated with the visitor questionnaire data, which is used to estimate spend by visitors.

The margin of error for individual questions may be higher where not all respondents provided an answer and may be smaller where the results deviated from 50% (i.e. were more conclusive).

Definitions

‘Economic activity’ refers to the overall amount of money that was spent by members of the public due to the project. This includes money spent by visitors order to take part in the project, and money spent by the organisation delivering the project.

Not all economic activity can be categorised as economic impact. For example, all money spent by visitors who live within Leamington Spa is excluded from the economic impact estimate - money spent by this group of people is viewed as money which would have been spent in the area’s economy with or without the project. Furthermore, only money spent by participants/attendees who were motivated to visit the area *because* of the festival is included.

Similarly, when it comes to working out the economic impact associated with spend by the delivery organisation, only money sourced from funders based outside Leamington Spa that is spent on services/products provided by individuals/organisations based *inside* Leamington Spa counts as economic impact.

‘Economic impact’ refers to 'new' money that has been 'injected' into the economy of Leamington Spa that would not have been present had AitP 2022 not taken place.

Economic estimates

Evidence suggests that Art in the Park 2022 generated around £2.2 million worth of economic activity in Leamington Spa. The table gives a breakdown of the economic activity associated with AitP 2022.

Economic output	Total
Total number of visitors	32,500
Total number of visits generated ²	10,075
Total visitor spends generated	£2,127,000

² Number of visits was calculated using a question which asks respondents whether they were visiting Leamington Spa because of AITP, as opposed to another reason such as visiting a friend – i.e. would they have been in the area regardless of the event. Trips made by people who were motivated to visit Leamington Spa because of the event were categorised as visits.

Total spend by delivery organisation	£168,000
Total economic activity	£2.2 million

Dear Sir / Madam

[Warwick District Creative Compact](#), a strategic leadership group for the creative sector in Warwick district, would be delighted if Arts Council England would support **Art in the Park Festival's** application to Arts Council England, which will enable this exciting, hugely successful, and important festival to return to Royal Leamington Spa in 2023.

For 9 years, **Art in The Park Festival** has been an important and valued event in the town's cultural calendar and has helped deliver multiple strategic priorities outlined in [Warwick District's Creative Framework](#), a five-year strategy that aims to accelerate creative sector growth and maximise its impact across Warwick district through partnership and collaborative working. 2023 will be their 10^{year} anniversary

Art in The Park Festival will contribute to the 'Engagement' strand, by providing residents and visitors to the area with opportunities to engage in a broad range of free, inspirational arts and culture activities. Associated engagement opportunities will provide a 'Voice' to the creative people, community groups and organisations in the district, and contribute to 'Placemaking'. We anticipate that it will also address the 'Innovation' strand as the programme will explore and address a range of complex themes and ideas through a multitude of disciplines.

We are excited that the 2023 event aims to be more environmentally focused and more inclusive than previous years. We are also delighted to hear that programming, marketing and outreach activity will be developed with special education needs and disability (SEND) in mind.

Warwick District Creative Compact will actively support the **Art in The Park Festival** with lobbying and advocacy through its Members' networks and channels, ensuring that it is connected to and supports other strategic initiatives and projects in the area for mutual gain, and act as a critical friend during the planning and development phase.

Yours sincerely

Re: Leamington Art the Park Festival Application 2023 – Letter of Resounding Support

Dear Madam / Sir,

I am writing on behalf of the BID Leamington Board of Directors to express our support for the bid to secure funds to support the continuation of the **Art in the Park Festival in 2023**.

BID Leamington is a not-for-profit organisation whose role it is to promote and enhance the town centre in Leamington Spa. It is funded by local businesses to deliver events, promotions and enhancements throughout the town. A big part of this is done in partnership with local event organisers and volunteers including the team who organises the Art in the Park Festival. BID Leamington is also a founding member of the **Warwick District Creative Compact** established with ACE support in 2020.

Over the years we have seen this event grow into the incredible festival it is today. Now it is one of the biggest events in the town centre and **attracts thousands of people of all ages** over two days. Research suggests this brings millions of pounds to the local economy, which is an important part of sustaining a thriving town centre.

However, perhaps the **greatest value for us** is the massive amount of creativity it showcases and the commitment that the organisers have made to ensuring this event is **free for the public to attend**, which is **only possible with ACE funding**. This means the creative world is **more inclusive** and **accessible to everyone**, which we feel contributes to creating a more **cohesive community** where local people feel a **strong sense of belonging**.

Another very important aspect of this event is that it is not just 'two days'. The organisers work on it **year-round** and in the lead up to the event they **run community workshops** in many locations, **bringing people of all ages and background together** to make and create in preparation for the festival. We have also met with the organisers to discuss creative approaches to involving local town centre businesses and promotion.

The commitment that the Art and the Park team have made to **supporting the local creative community** and **fostering a sense of community** is immensely inspiring and we feel should be applauded and of course, supported. **Your support and the support of others is critical to ensuring events** like this can continue to be accessible to all. We are also convinced they are a huge part of **ensuring our community remains** resilient to the significant **cultural, environmental and economic challenges facing society**.

Please do not hesitate to contact me if you have any questions.

To whom it may concern,

I am writing to express Motionhouse's support of Art in the Park Festival 2023.

Motionhouse has performed at Art in the Park many times and we have always been struck by the community feel and home-grown roots of the festival. Art in the Park's appeal is not just limited to Leamington though. 60% of attendees who travelled from outside of Leamington planned their trip specifically to attend the festival. This shows the broad appeal and reputation for high quality.

Motionhouse is a touring company that performs all over the world, and Art in the Park festival is one of the few opportunities we have to perform in our local area. As a company we are passionate about our local area and having the opportunity to perform in Leamington is incredibly valuable for us. Performances of our duets were seen by over 600 people at Art in the Park in 2019 and in 2020 a film of our show WILD was part of their virtual festival, which was seen by over 3000 people across the weekend.

Furthermore, Art in the Park is also incredible for the local economy. 2022's festival generated circa £2.2 million worth of economic activity. It is a well-received, well organised, and well-known festival in our local area that is vibrant and uplifting.

For the first time we are planning for our Youth Company to perform at the 2023 festival which will be a fantastic opportunity for the dancers to perform at an event in their hometown. It is our belief that Motionhouse will benefit greatly from Art in the Park 2023, as will the festival attendees who will be able to enjoy the joyous atmosphere it creates.

Yours sincerely,

Leamington LAMP thoughts on Art in the Park Festival, Leamington Spa.

Art in the Park has taken over from the Peace Festival as Leamingtons main summer season art and culture event, with broad appeal for both families and the general public. It's considerable growth over recent years has been matched with excellent management and implementation. This can clearly be seen by anyone attending or working at the festival.

The festival has given LAMP the opportunity to take traditional activities e.g print making and large scale communal painting to a very broad cross section of the community, but also original, exploratory and experimental participatory projects such as our self generated sensory music from bio-data / human sequencers jamming with plants, and giant hide n' seek with photorealistic onesies created from plant photos from Jephson Gardens (helping keep alive the Spa town's heritage of camouflage).

The festival should be commended for engaging the cross section of cultures represented in the programming. LAMP itself is proud to have been funded for two years where we have created work opportunities for regional artists, and also artist assistant places for young SEND creatives through our connection with alternative education provider LAMP Learning.

Each year the festival leaves LAMP artists and young assistants on a high following a thoroughly enjoyable experience. We're pretty sure all our visiting participants have a fabulous time too.

As a local resident and arts business representative it's reassuring to see this festival bloom to its potential as a regional beacon of best practice.
