When is your project?

Tell us the start and end dates for your project.

Remember:

- To allow enough time to deliver all the stages of your project
- The dates you give us here should cover the whole project period you're applying for

- To allow enough time for us to make a payment before your start date, if your application is funded

St Leonards on Sea is a small coastal town, with a total population of 91k. Sounds St Leonards (SSL) is a hyper/local concert series, bringing world-class culture to audiences in England through a diverse global/roots/folk grassroots programme, in collab with St Leonards' music venues; responding to a gaps analysis in local music, & pioneering a 360 degree educative approach to developing audiences.

SSL now:

- grows/diversifies audiences; engaging local CYP, & Global Majority communities directly via community orgs
- expands its delivery; hosting 16 concerts, 4 wkshps, & 3 pre-concert talks throughout 2025
- builds on project lead, Holly Harman's experience & rep as a concert promoter.

SSL platforms hyperlocal, national & international artists together, in St Leonards/Hastings venues; increasing geographic accessibility for local audiences, & developing a hyper/local ecology for folkloric/grassroots music.

Venues inc:

The Crown House x 5 shows  
The White Rock Studio x 5 shows  
St John's Evangelist Church x 6 shows

Alongside concerts, SSL strategically embeds 4 wkshps, & 3 free pre-concert talks from Global Majority artists (see Where section for deets, (eg. Jasdeep Singh, & Angeline Morrison):

- engaging audience cohorts with multi-entry-point pedagogies; breaking down participant barriers by contextualising & developing people's cognitive understanding of musicians/cultures/music; without need for prior skills or training
- bridging gaps between audiences & performers; cultivating meaningful & intimate connections, & combatting the passivity/exoticising that regularly occurs in white-majority audience contexts
- developing a knowledgeable audience sector that has deeper understanding & connectivity to the genres of music SSL platforms; creating an ecology for repeat demand & the dev of longitudinal performer/audience/partner relationships.

Through concerts, wkshps, & talks, SSL combats the elitist whitewashing/gatekeeping that exists within the UK's programming ecology; exposing audiences to new sounds, & diversifying tastes. SSL platforms a genre-diverse lineup, inc: American-Haitian-British folk, Indian sitar, American fiddle, Folk songs of the Black British experience, Romanian/Klezmer string music, contemp lute, & Palestinian oud.

SSL works with:

- Afri-co-lab; a local community group engaging Global Majority residents, working from the principles of inclusivity, & anti-racism/oppression/colonialism. Afri-co-lab will triage outreach to Global Majority locals
- White Rock Theatre's Learning & Participation prgrmm; engaging CYP/families, with an additional kids & parents concert.

Longitudinally, SSL leverages Holly's industry connections & experience, to

grow & diversify the hyper/local grassroots music ecology; nourishing partner/audience relationships that enable SSL to bring world-class cultural music to informed, engaged & diverse audiences in St Leonards.

Holly Harman is a distinguished violinist. She studied at the Royal Welsh College of Music & Drama, & has toured/performed with some of Europe's premier orchestras & ensembles. Also a dedicated educator & mentor; Holly regularly leads wkshps, & teaches at The Royal Academy of Music's Jnr Dept. She has a background (via Future Talent Charity) developing underserved/underrepresented yng classical musicians.

With the support of successful DYCP & NLPG ACE funding, Holly established Penny Fiddle Records (PFR); a UK-based independent record label dedicated to releasing new, old, multi-genre & undexplored string music. For 5yrs she developed her skills as a programmer; organising/producing tours for PFR artists.

In 2020, Holly moved to St Leonards on Sea, & identified a gap in local music programming. Holly set up SSL as an annual concert series that reflects the recording ecology that PFR supports; championing music from artists that reflect UK's diversity.

In its 2024's series, SSL:

- delivered 6 concerts, inc musicians with traditional/musical roots in Africa, India, Belgium, England, Ireland & America
- established an audience following of 150+; majority 40-60yrs & able to afford a concert ticket of £15.

SSL now leverages ACE investment to launch the 3rd phase of Holly's work; developing St Leonard's grassroots music ecology, growing hyperlocal audience cohorts & combatting socio-economic barriers to participation.

Leveraging ACE investment, SSL builds out audience understanding in order to improve event attendance. SSL draws on Holly's background as a promoter/educator, pioneering a 360 educative approach to help people to overcome barriers to becoming audience members; making bespoke pedagogical choices.

The project gathers data on KPIs, inc:

- no of audience members & participants at concerts & wkshps
- diversity of audience members & participants
- reported quality of experience for audience members: venue, sound quality, accessibility, feeling of inclusion, connectivity to performers/facilitators
- reported quality of engagement for performers: team communication, sound/tech quality, community/audience experience
- how many audience members are regulars/new.

They will evaluate the project's impact through:

- regular team meetings/peer review; creating team cohesion & responding to feedback/SSL needs
- regular stakeholder meetings; engaging ecology peers/participants/performers
- a comprehensive Impact and Insight Toolkit & Bespoke evaluation framework; created to track the immediate & longitudinal impact of SSL
- QR code surveys & F2F feedback; capturing audience/participant & performer feedback in a feedback database.

SSL will attend English Folk Expo Manchester (March 2025) to dev SSL's programming networks for longitudinal delivery, & connect with industry peers to build relationships & gain advice/industry insights; elevating the national connectivity of SSL.

## Environmental Responsibility

This question is about our Environmental Responsibility Investment Principle.

You can read more about this in the Being environmentally responsible section of the Guidance Library.

**What are you doing to make your project environmentally responsible?** Alternative travel and transport for people involved in your project, Audience travel – for example collecting data on how people travel to events or encouraging sustainable travel, Carbon footprint - for example using a carbon calculator to forecast or better understand your project footprint, Materials and resource use – for example reducing waste or up-cycling

### Tell us more

Up to 1500 characters

- What are the environmental actions or targets for your project?
- Are you testing any new approaches or ideas?
- How will you evaluate and share your environmental approach?

SSL will draft a new environmental policy that relates to travel, resourcing, recycling, energy use & performance activities; to be used for the longitudinal dev/future iterations of SSL; elevating SSL's overall environmental approach.

With 1000+ participants & performers, SSL delivers clear messaging related to travel choices. SSL will:

- inc travel related Qs in surveys & gather how far performers/partners/& participants have travelled, & what transport they used
- encourage eco-awareness in travel choices throughout all online & in-person events promo; encouraging audiences to either walk, or bike/carshare where possible; fostering a sense of community & reducing carbon footprint
- conduct stakeholder/team meetings online via zoom instead of in person
- book majority artists for the programme; for the 6 internationally-based musicians scheduled, 7 St Leonards/Hastings based musicians are programmed, & the 25 England-based musicians are platformed with geographical/travel distances factored

SSL will reduce waste by:

- printing 8 page prgrmmme booklets & A3 SSL posters & flyers on recycled paper (via HelloPrint)
- conducting online surveys instead of paper form

Referencing Green Tools & Julie's Bicycle resources, SSL will measure energy use, waste generation & recycling, travel & production materials. The results will inform a new environmental strateft & SSL aims for Creative Green Certification by 2026.

## Location

Here you can build a list of where your project is happening.

The location(s) you add to this list need to match what you've selected on the Where table on the previous screen.

You can select the same option or different options as many times as you want until you have a list of the places that your project will happen.

Using the tool below, please enter the location(s) where activity is happening. To add a location, click the 'Add new item' icon on the left of the screen. To add more than one location, use the 'Save and Add another' button.

If your project is not happening in a specific place, select 'Project includes things that aren't happening anywhere specific' on the Where screen and delete any locations you have added to this list.

## Inclusivity and Relevance

This question relates to our Inclusivity and Relevance Investment Principle.  
You can find more about it [here](#)

### What steps are you taking to make your project inclusive and relevant?

Up to 3500 characters

#### Inclusivity

- How have you embraced a wide range of diverse influences and practices in bringing your project together?
- How will you make sure the communities you want to reach are able to access your project, and feel included and welcomed?
- What things might stop people experiencing or accessing your project, and how will you address them?

#### Relevance

- How have you involved the people you want to reach in the design and planning of your project?
- What information or data do you have on the place or community your project involves? How have you used this to shape your project?
- If it's relevant, how will the project team reflect the people and communities your project will reach?

SSL's current following is largely comprised of White, 40-60 yr olds who can afford a £15 concert ticket. However, East Sussex JSNA's area profile reports that 59% of Leonards on Sea's 20-64 yr olds are classified as 'deprived', & 85%+ are white.

SSL actively diversifies audiences; directly engaging:

- Global Majority communities
- CYP/families
- low-income status individuals

This project centres access needs of the above target cohorts/marginalised communities by:

- introducing FREE pre-events in collab with Afri-co-lab; scheduling a pre-event Global Majority line up that they relate to, & disrupting the white-centric (music) spaces that Global Majority individuals are continuously required to adapt to
- collaborating with The White Rock Theatre's Learning & Participation programme for 100 CYP; elevating creative engagement opps outside of schls
- providing 100 x accessibility boxes for audience members with accessibility needs; inc. ear plugs, sunglasses, lyric sheets, learning resources etc.
- delivering SSL's first informal 'kids & parents' coffee concert
- offering discounts to community groups & supporters; supporting lower socio-economic status individuals to participate by
- embedding a pay-it-forward scheme into SSL; leveraging the established following of paying audiences to disseminate accessibility/opps
- professionally livestreaming 3 of the concerts for free; combatting socio-economic & geographic barriers to SSL shows, & developing legacy assets
- ensuring that majority of the venues have wheelchair accessibility &/or support services for physically impaired individuals; who statistically suffer (as a result of impairments) from social & financial access limitations.

SSL intentionally programmes a diverse line up; sustaining the careers of marginalised artists, & creating an inclusive environment for participants ft:

- 18x female musicians; combatting the male-dominant nature of the music/performance industry
- 3x LGBTQI+ musicians; combatting heteronormative marginalisation in music
- 9x musicians from the global majority; combatting the racist whitewashing & appropriation in the UK's music; & championing those who advocate for their voices & stories to be heard.

SSL uses this project as an opportunity to further-develop local partnerships; enhancing SSL's impact & longitudinal possibility. SSL will engage with:

- Dark Circles: a local coffee + vinyl shop, who offers space for holding events in a sober environment, + SSL promo & in person ticket sales; with a vision to expand the prgrmme to deliver relaxed performances, talks & wkshps here
- Afri-co-lab: a St Leonards based org, engaging Global Majority communities; with a vision to build on the initial pre-concert talks, hosting more & diversifying the types of events that SSL delivers in collab with them
- English Folk Expo, Manchester: connecting to a network of thematically-aligned performers/industry peers; developing new industry connections for the elevation of SSL.

## Your planning

You've told us what you want to do and what you hope to achieve. We now need to understand how this will come together to be successfully delivered.

We need to know:

- Your project plan – what you're going to do and when
- Your plans for managing the project – you don't need to have managed a project before, but you need to show you've thought about what you'll do or who will support you
- Who you'll work with and how they'll contribute
- What your budget is and how you've worked it out, including paying everyone fairly
- How you will respond to challenges you might encounter

## Project timeline

**Project Start Date: 24/10/2024**

**Project End Date: 17/12/2025**

You've told us the start and end date of your project. We need to know what will happen during your project. Creating a timeline shows the key tasks that your project is made up of.

We understand that plans can change over the life of a project, but we need to see that you have a plan in place to deliver your project.

To create the table, click the 'Add new item' icon on the left of the screen to add a project stage. To add more than one stage, use the 'Save and Add another' button.

The table at the bottom of the page will populate with the information you enter about the stages of your project.

We need to know how much money you are applying to us for.

We'll ask you to tell us how much money you'll have to spend on the project (the income) and what you will spend it on (the expenditure). We'll also ask you to think about any challenges for your project and explain how you will respond to these.

Please read the Budget section of our Guidance for Applicants for help on completing your budget.

## Risks and challenges

There are risk and challenges to any project. Our funding can support you to take more risks than you might normally be able to. It may allow you to try new creative or cultural ideas, despite the unknowns and the possible financial or reputational risks.

Taking creative or cultural risk is important because it means that creativity and culture are always growing and changing.

It's important that you've thought about what the risks or challenges are. If they happen, you're then able to manage them and still deliver your project successfully.

If you want to understand more about risk, including the different types of risk, you can have a look at our Practitioners guide to identifying and managing risk information sheet.

### What are the main risks and challenges to your project meeting its aims?

Up to 2000 characters

- What could go wrong?
- What might happen differently?

R1 talent availability: unexpected unavailability of key performers may impact the quality of events/smooth running of SSL's prgrmme.

R2 low audience turnout: risk of low attendance at concerts & wkshps, impacting SSL's success/reputation & generation of project match funding.

R3 clashes with other events: competing events may draw away from SSL performances.

R4 lack of engagement with Global Majority/family/low-income cohorts; individuals/communities not feeling safe or aligned with SSL & choosing not to attend; resulting in SSL's intention to diversify audiences not coming to fruition.

R5 perceived tokenism; there is a risk that SSL's efforts to diversify may be perceived as tokenistic or culturally appropriative, especially if not handled with genuine engagement and respect for the cultures represented.

R6 concerts/wkshps/talks & online livestreams being compromised by technical issues.

R7 sustaining audience interest; keeping a diverse audience engaged over the long term may be challenging; audience numbers could wane; threatening the longevity of the series

What will you do to manage these risks?

Up to 2000 characters

- What plans have you put in place?
- Have these actions worked before?

Mitigation 1: SSL establishes clear agreements with artists regarding cancellation. If SSL's scheduled artists are unable to perform, SSL has a roster of back up performers who can step in if key performers become unavailable. Each event has contingency plans.

M2: SSL partners with local businesses & community orgs who are aligned with the project's MO, & support the delivery of world-class music being brought to St Leonards. SSL will constantly gather audience feedback on how to make events more welcoming & engaged. With an established following of 150+ regular attendees established since 2021, SSL is confident that the prgrmme is on an upward trajectory.

M3: SSL exists as a result of gaps analysis; responding to a local need for live global/folk music. SSL offers unique & exclusive content that differentiates from other local events; & schedules events in conjunction with local music festivals; generating a collaborative approach to music prgrmming in the area.

M4: SSL works closely with community leaders & orgs to build genuine trust & authentic connections; tailoring the prgrmme to be more inclusive & relevant; foregroundin the need for EDIB to be centred in SSL's dev. Marketing materials emphasise a welcoming & safe environment.

M5: SSL's wkshps & pre-event talks serve to connect SSL's communities with Global Majority/cultural artists; embedding an ethos into SSL's delivery, that uplifts the importance of sincere appreciation, & cross-pollination of culture.

M6: SSL works with experienced technical staff/venues & provides thorough outlines of needs & expectations that SSL holds. Pre-event testing/ sound checks will be necessary, & back up equipment/tech support will be on standby during events.

Safeguarding

You acknowledge that safeguarding is important in all projects working with the public. You acknowledge that if your project is funded you must sign up to Terms and Conditions that require you to have appropriate policies and procedures in place – and to put them into effect where needed – to support the safe delivery of the project.

## About you / your organisation

**We use all of this information in an anonymised way to help us see a clear picture of who we are supporting through Project Grants, and how this might need to change to ensure that, over time, the grants we make reflect the diversity of contemporary England.**

**We also use some of the information to help us make funding decisions.**

**Sometimes we prioritise supporting people and organisations who share characteristics that are underrepresented in recipients or beneficiaries of National Lottery Project Grants funding, so it helps us to know the characteristics of the individual or the organisation applying.**

**We believe that the creativity of each of us should be valued and given the chance to flourish, and every one of us should have access to a remarkable range of high-quality cultural experiences.**

**Equitable access to arts and culture funding is an important part of this. We believe the spread of who and what we invest in should reflect the makeup of the wider country we live in.**

**This is about us delivering on our Equality Objective:**

**We will ensure a more equitable distribution of our investment to improve opportunities for everyone, especially those with under-represented protected characteristics and from disadvantaged socio-economic groups.**

**We know from our data that Black, Asian and ethnically diverse people and disabled people are underrepresented as recipients and beneficiaries of National Lottery Project Grants funding. If you choose to tell us, information about your ethnicity and whether you identify as a disabled person may be used as part of our decision-making process. (If you're applying as an organisation, we'll use the information you give us about the characteristics of your organisation's board and/or senior management.) We will use this information combined with information about who your project will work with, and all the other information you give us about your project.**

**We will never share this information with others, except in an anonymised way.**

**If you're not comfortable sharing any of this information with us for this purpose, you can select 'Prefer not to say'.**

## Monitoring information

**We use the information in this section to report how we have spent our funding from the National Lottery.**

**In this section, you must answer all the questions. If you prefer not to provide some of the information, you can tick the 'Prefer not to answer' box. We may use this information to report to the Government or to monitor the different backgrounds of people who receive grants.**
