

› **Have you used a recognised industry standard to work out how to pay artists and professionals involved in your project (including you)?**

If you answer 'yes', tell us which one.

If you answer 'no', tell us how you have calculated fees in a different way.

› **Please explain in more detail (600 characters)**

2023 A-N Pay guidelines & industry standards for specific/expert professional support have been factored into the project's budget for all collaborators.

Your Project

› **In your own words, tell us what your project is.**

Give us a 50 word summary (300 characters)

Forest Bathing will create & pilot an immersive VR artwork of the UK's rainforests to engage marginalised non-metropolitan young ppl in Wiltshire who traditionally face barriers to the arts & connecting with nature to support their mental health.

› **Then, give us a more detailed description of what you want to do using our funding (800 characters)**

We'd like to know:

- what your project is
- what will happen
- who it is aimed at; and
- how your project is developing and delivering excellence

Forest Bathing (FB) is a collaborative art project that uses Shinrin-yoku, the Japanese investigation into the positive effects of nature on physical/mental health, as its muse

FB will:

- use state-of-the-art equipment (inc drone tech) to capture & create a 360-degree/immersive VR artwork of UK rainforests
- collaborate with NHS experts to inform the creative development & ensure its connectivity to the social prescription agenda
- pilot the VR artwork on marginalised young ppl in Wiltshire
- exhibit the pilot VR experience at Messums Gallery inc:
 - 1) x 6 wkshps in partnership with Community First who support isolated young ppl in Wiltshire
 - 2) a creative panel discussion with wkshp participants, environmental & mental health experts on the impact of the immersive VR experience.

› **What type of activity does your project mainly focus on?**

This gives us a good sense of the different elements of your project. Tick as many as you feel are relevant.

Tickbox

	Developing new creative or cultural work mainly on my own, or within my organisation - For example: new visual artwork, a theatre piece, a piece of research
X	Developing new creative or cultural work mainly with other people - For example: co-creation, learning or participation activities
X	Developing my own skills, or the skills within my organisation - For example: skills development, talent development, mentoring
X	Showing, performing or exhibiting something to/with, people in your/ their, communities - For example: a show, an exhibition, a tour, a programme of activities
	Working in a way that is focused on a specific place (a village, town, city or region) or community in England - For example: developing or delivering a cultural strategy for a specific place
	Developing our organisation - For example: trying out new business models, business planning, testing out a new approach
	Working internationally - For example: international exchange, network development, or touring
	Working at significant scale or scope, with a national impact - For example: national touring, an event for a national anniversary or commemoration
X	Working innovatively and/or collaboratively - For example: working across sectors, with new partners, learning from inter/national best practice
	Something else (if you tick this a 200 character narrative text box will appear)

Who and how

› **Estimate how many people will experience your project**

Category	Description	How many?
Creative Practitioners	People taking part in the project to deliver creative activity or directly benefiting from the project in their role as creative or cultural practitioner	13
Active Participants	People taking part in or contributing to the project. This might include taking part in a workshop, performing in a community show, or joining a class	90
Volunteers	Those supporting or benefitting from the project in a voluntary role	
Live audiences, visitors and public	Those who are present during the live presentation of a creative product, such as a live show or creative exhibition	2200

Streaming audiences	Those who experience a recording or broadcast of a live presentation through a digital platform	
Digital audiences	Those who experience a creative product designed to be experienced through digital technology	26,277
TOTAL		

› **How have you worked out these figures?** (Up to 800 characters)

Creatives:
 Project Lead x 1
 Project Leads Assistant for Field Trips x 1
 Project Researcher x 1
 Drone Expert x 1
 360 Capturer x 1
 Sound engineer & VR expert x 1
 NHS Mental Health Experts x 2
 Charlie Waller Trust x 1
 Community First x 1
 Environmental Expert x 1
 Messums Gallery x 1
 University of Derby x 1

Active Participants:
 Community First Wkshps x 6:
 Each wkshp will include a cohort of x 15 young ppl, identified by Community First Outreach Prog: Youth Action

Live audiences, etc.
 Messums Gallery Exhibition: 2000 (est taken from similar 6-week exhibition programme)
 Q&A: 200 (est. taken from similar panel discussion attendance - targeting local community & project collaborator networks inc. Community First & Charlie Waller).

Digital (IG):
 Joanna: 1351
 Messums Gallery: 21.5K
 Community First + Charlie Waller: 3426

› **How many of the people taking part in/contributing to your project are employed on a freelance basis?** (Type in number)

7

› **How will people experience your project?** (Tick as many as apply)

X	Live event(s) – static	A creative event or programme (such as a show in a theatre or an exhibition in a museum) with a live audience, happening in one location over a single or multiple number of events
	Live event(s) – multiple locations/ touring	A creative event that is happening in multiple locations either simultaneously or consecutively. This can include touring shows and exhibitions visiting multiple venues, or purpose-built structures that are moved from one location to another
	Digital Experience	A creative product that is designed to be distributed and experienced through digital platforms or hardware such as headsets or personal devices
	Streaming or Broadcasting	A creative event that is presented live but either streamed live or broadcast as a recording of a live event

	Longer term public engagement in England	This activity will allow you to engage individuals and communities in the future rather than during your project. For example: if your project solely focuses on research and development, organisational development, creating a product, or only touring outside of England. (if you tick this an 800 character narrative text box will appear)
--	--	---

› **Who are you hoping will benefit from your project in the longer term, and how will they experience it?** (Up to 800 characters)

▲ *This question will only appear if you selected "Longer term public engagement in England".* ▲

Forest Bathing will create a state-of-the-art pilot VR experience that can subsequently be used as a viable creative tool for social prescribing, & educating on a global environmental crisis; the deforestation of the UK's rainforests. In the long term, Joanna intends for a national audience of young ppl to engage with & benefit from the project & the artwork. For example, by taking it to 360 domes around the UK in places such as Plymouth where they have a permanent dome. Beyond this, Joanna will look to outdoor immersive spaces such as the Outernet at Tottenham Court Road with a footfall of 400,000 people per day.

› **Tell us more about the match funding for your project** (1500 characters)

▲ *This question will only appear once you have entered a type of income into your income budget table.* ▲

Confirmed Income:

Joanna Vesty has received a philanthropic donation to show commitment & support to the project: £10,000

Expected Income:

Joanna estimates from previous exhibition sales that she will sell x 20 photographic prints created for the exhibition by pricing them at an affordable £150 per print (inc. framing).

SIK:

-Bayeaux Photographic will print x 20 prints for the exhibition in kind, £2000

-NHS consultant & mental health expert Daniel Curtis will offer his expertise feedback, 1.5 days, £300 per day

-Guy Shrubsole will participate in the Exhibition Q&A, waiving his standard speaker's fee: £250

-Messum Gallery space will provide:

1) outreach Manager support for x 6 wkshps & admin/sales support for exhibition: 6 half days + 1 day/week (£300 per day)

1)exhibition space for 6 weeks

2)wkshp space for x 6 wkshps with Community First

3)technician for in-stall & de-install

-Tower Hamlets GP Care Centre will provide space for showcasing the pilot VR experience to mental health experts, 1 day @ £300

-Kirsten McEwan expertise feedback, 1.5 days & Exhibition Q&A, @£300 per day + £250 speakers fee

-Charlie Waller Trust expertise feedback (Abigail Hirshman), 1.5 days @£400 per day.

› **How have you worked out the costs of the artistic spending included in your budget?** (1,500 characters)

▲ *This question will only appear once you have selected artistic spending as a category in your expenditure budget table.* ▲

Joanna Vestey is an established creative practitioner with extensive experience managing large-scale creative projects & budgets. All costs for collaborators have been cross-checked with up-to-date industry rates:

-Rosie Wells

-Michael Danks

-Giles Price

-Sarah Tahsildar
-Steve Crawley
-Jesse Thompson

Rainforest Field Trips are an essential part of the project. Joanna has allocated x 9 days for herself & Assistant, Finley Hannley to visit those that have been identified as the most visually impactful for the VR experience.

Vestey has factored in x 6 days for drone expert Michale Danks & 360 content expert Guy Price:
-4 days to visit Cornwall & Devon rainforests
-2 days to review & edit content

Rental of VR headsets:

-showcase to mental health experts to gather feedback on user experience
-x 6 weeks for Messums Gallery exhibition

Quotes for the rentals have been taken from direct online quotes.

Environmental advocacy & responsibility are at the core of Forest Bathing VR. To support FB & its legacy as an accessible tool for engaging with arts & nature the environmental campaigner Guy Shrubsole, will consult on the project to:

-give feedback on how to share environmental data & facts in an accessible, inclusive & digestible way.

› **How have you worked out the costs of making your work accessible included in your budget?** (1,500 characters)

▲ *This question will only appear once you have selected making your work accessible as a category in your expenditure budget table.* ▲

Joanna Vestey will work with Sasolo a grassroots consultancy firm, that supports individual artists & organisations. Sasolo are particularly interested in supporting those with a focus on underrepresented, marginalised & Global Majority demographics & cohorts. They will provide expert guidance on connectivity to the national conversation & consultation in support of key project deliverables. This will be essential in supporting the future development of the VR experience, especially evolution on a national scale.

› **How have you worked out the costs of marketing and developing audiences included in your budget?** (1,500 characters)

▲ *This question will only appear once you have selected marketing and developing audiences as a category in your expenditure budget table.* ▲

FB Ads & posts: (15 x @ £80) - specifically targeting local audiences for the exhibition at Messum Gallery to encourage local footfall from the rural communities, working with Messum Gallery to build a FB group & page to target with paid advertisements for the exhibition & community wkshps for a set duration of time beforehand. Also, additional ads to run on national & international broad target levels for advertising the national scope of the project; supporting future opportunities for larger scale iterations.

› **How have you worked out the costs of the overheads included in your budget?** (1,500 characters)

▲ This question will only appear once you have selected overheads as a category in your expenditure budget table. ▲

Travel for the Field Trips has been factored into the budget:

Joanna Vestey & her assistant Finn Hassall will travel together to visit & capture the stills & sound recordings of x 7 Rainforests in the UK; these have been categorised into different counties (Cornwall, Devon, Dorset & Yorkshire). Costings for travel, accommodation & sustenance have all been researched according to:

-the trainline

-local airbnb's

-current estimate of food from supermarkets.

Vestey has consulted with Michale Danks & Giles Price to establish a realistic allocation of days for travelling to Devon & Cornwall Rainforests to capture essential content (drone & 360 capturing) for the VR experience. Costings for travel, accommodation & sustenance have all been researched according to:

-the trainline

-local airbnb's

-current estimate of food from supermarkets.

› **How have you worked out the costs of expenditure listed as 'other' in your budget?** (1,500 characters)

▲ This question will only appear once you have selected 'other' as a category in your expenditure budget table. ▲

A small contingency is included to protect against fluctuations in costings.

Risks and Challenges

› **What are the main risks and challenges to your project meeting its aims?**

What will you do to manage these risks? (1500 characters)

Forest Bathing (FB) will work with a number of external partners & collaborators, whose expertise is essential to the development of the VR artwork & overall project.

R: A project partner/collaborator is unable to carry out their role

M: Joanna has requested each partner provide alternative contacts to support the project should they be unable to carry out their role.

FB will engage with x 90 marginalised young ppl (due to their complex socio-economic backgrounds &/or battle with mental health) via the participatory wkshps at Messums Gallery.

R: There may be members of the wkshps who do not wish to engage with the activities/could be disruptive to the rest of the group

M: Steve Crawley has extensive experience working with the selected cohort of young ppl

FB will rely on environmental & scientific data as a creative resource.

R: Due to the sum of information that is available to support the project, more time may need to be factored in to compile all evidence.

M: Rosie Wells is an experienced strategist & researcher who will have the support of Joanna & Sasolo to navigate the workload. Contingency has also been included in the budget should extra days need to be allocated to summarise all data & evidence.

Weekly 1hr project meetings between Rosie & Joanna will ensure the activity is on track & signal any potential challenges, so mitigating action can be taken.

Delivering the Outcomes

Resources for this section:

[Let's Create Outcomes](#)

[Outcomes in the Delivery Plan - p6+7](#)

[ACE priority places 2021-24](#)

› **How will your project contribute to the delivery of at least one of our Outcomes, including which, if any, of the Outcome components?**

Tickbox, selecting at least one

	Creative People - Everyone can develop and express creativity throughout their life
	Cultural Communities - Villages, towns and cities thrive through a collaborative approach to culture
	A Creative and Cultural Country - England's cultural sector is innovative, collaborative and international

› **Creative People: How will your project contribute to this outcome? (1500 characters)**

▲ *This question will only appear if you selected "Creative People".* ▲

Forest Bathing will use the latest immersive VR technologies; stills, drone footage, 360 capturing & audio taken from UK rainforests to offer an accessible & unique way to creatively engage marginalised non-metropolitan young ppl in areas of Wiltshire with nature.

Joanna will work collaboratively with:

- future-facing tech-art practitioners (eg. Michael Danks, Guy Pierce & Jesse Thompson) to co-create the immersive VR artwork
- co-devise x6 wkshps with Community First to increase x 90 young ppl's participation in high-quality creative activities.

Wkshp participants will:

- experience the artwork via personal VR headsets
- engage with all exhibition content (inc. photography stills)
- discuss & create drawings/artworks in response to the VR themes (deforestation, climate change & technological innovation)
- co-devise questions for the exhibition's Q&A with environmental & mental health experts/activists Guy Shrubsole & Kirsten McEwen.

The wkshps will:

- promote creative opps in the local community for young marginalised ppl who have been identified by Community First as facing barriers to positive social/cultural engagement/activities
- empower participants to engage with an immersive, person-centred creative experience
- empower young ppl to engage with the natural environment in a new & innovative way
- use tech (VR experience) & the environment (rainforests) to inspire engagement with nature & art
- enhance moods & confidence via art & nature related activities
- connect participants with cultural influencers & networks; building pipelines to long-term involvement in the arts via Messums Outreach Prog.

› **Cultural Communities: How will your project contribute to this outcome?** (1500 characters)

▲ This question will only appear if you selected "Cultural Communities". ▲

Forest Bathing (led by creative director) Joanna, will engage directly with local rural communities in Wiltshire via devolved triage & its collaborative place based partnerships with:

- the award-winning ACRE-accredited charity, Community First
- Messums Gallery.

Community First will co-devise a wkshp model for the participants that connects the marginalised young ppl with the VR experience & the environmental themes it is addressing, to ensure they respond to their needs & interests, identified in consultation, resulting in increased cultural engagement.

The partnership identified a need for creative, cultural & nature-oriented activities in the local area, orienting around young ppl impacted by their complex socio-economic backgrounds & challenges with mental health.

Cultural education outcomes, emerging from the education wkshps:, regarding the deforestation of the UK's rainforests; their rare & ancient ecosystems, inc:

- increased creativity; in the intersection between cutting-edge technology & the arts
- awareness of the power of art & creativity as a socio-political tool
- knowledge of how to build a career in the art/environmental/health sectors.

GSO's from the wkshps inc:

- an increase in well-being & connectivity with nature
- collaboration & knowledge sharing via participatory activities
- social connectedness & engagement via participatory activities.

› **A Creative and Cultural Country: How will your project contribute to this outcome?** (1500 characters)

▲ This question will only appear if you selected "A Creative and Cultural Country". ▲

Forest Bathing supports a new type of creative practice & innovation for Joanna via:

- its collaboration with creative technologists (eg. Guy Pierce & Michael Danks), using sound, photographic stills & immersive visuals to deliver a VR environment which recreates the UK's unique rainforests, making them accessible for marginalised, young ppl in rural Wiltshire

It draws on data from mental health & environmental experts to support innovation, research & development, building new skills & the use of new technologies to:

- inform functionality & user experience of the VR artwork, specifically targeting young ppl
- influence/inform the project brief to support future iterations of VR research/funding
- specifically engage yng ppl with mental health challenges in an innovative way
- reach new & existing audiences.

Collaborates with Messums Gallery, & their international audience, to:

- showcase its first-ever future-facing/immersive exhibition; a 6 week showcase of photography & VR to immerse audiences in forest bathing

-host the collaborative Q&A discussion with Guy Shrubsole & Kirsten McKewn.

Develops Joanna's career by introducing cross-sector working to her practice; she engages with health services/experts & technology to develop new work, positioning herself in a unique way in the UK's contemporary arts ecology.

Creates a world-class artwork; using cultural experiences to support environmental awareness; taking international influence from Shinrin-yoku to platform the unique & endangered habitats containing ancient oak, birch, ash, pine & hazel woodland.

› Communities

-Tell us **who you want to reach with this project**

how you have identified them,

how they have been involved in the planning and/or creative process

-Tell us about the steps will you take to make sure your project is open and accessible to people within the communities you plan to work with

(1500 characters) <all applicants must answer>

A record 1.4 million children & young ppl sought [NHS](#) help for mental health problems in 2022 with issues inc. money & education. In response to this, Forest Bathing has identified a need to support young ppl struggling with their mental health via engagement with nature.

Forest Bathing is aimed at non-metropolitan & marginalised young ppl who:

-live in Wiltshire (which has been identified as having a higher youth unemployment rate than the national average & where 8.1% of 18 - 24-year-olds receive Youth unemployment 18-24 JSA or Universal Credit)

-have limited interaction with arts, culture & nature due to their demographic &/or social/mental well-being challenges.

FB has identified these young ppl by:

-partnering with the ACRE-accredited charity, Community First whose Youth Action Wiltshire programme offers alternative learning & support to young ppl aged 16-19 years who are Not In Education Employment or Training (NEET).

The identified community have been involved in the planning via:

-ongoing discussions with the Head of Outreach at Community First, Steve Crawley, who has recognised through discussions with his cohort of young ppl, an interest/need for engagement in creative activities inc. creative wkshps.

Accessibility & inclusion

-the user experience & creative outputs of the VR artwork have been co-designed with mental health experts (eg. Daniel Curtis, Kirsten McEwan, the Charlie Waller Trust) & environmental activists/experts (e.g. Guy Shrubsole) to ensure the communities' needs have been fully considered in the design.

› Workforce

-If you're engaging a team of people to work on your project, or are working in partnership with other individuals or organisations, tell us:

-How you will ensure they reflect the communities you wish to reach

-How you will ensure access to opportunities are open and accessible

-If you're not working with anyone else on your project you should explain why and consider how working with others would help you to reflect the communities you wish to reach.
(1500 characters) <all applicants must answer>

Forest Bathing (FB) has identified key partners & stakeholders to ensure the project reflects & is considerate of the young ppl it will engage with by collaborating with:
-NHS Mental Health professionals Sarah Tahsildar, Daniel Curtist, Kristin McKewen & the Charlie Waller Trust.
FB will consult with these partners to gather expertise feedback on the VR experience to inform:
1)how to effectively engage the young ppl with the experience
2)the project's supporting brief by providing scientific evidence
-Environmental expert & activist, Guy Shrubsole to:
1)provide evidence & facts on the impacts of deforestation of the UK's rainforests to inform the collaborative Q&A & the project brief
-Messums Gallery whose Active Environmentalism programming (a series of talks from leading minds & thinkers) advocates for the intersection of science, art & technology as a necessity for the future-facing arts ecology
-Community First: who manages a wide range of programmes to support vibrant communities & brighter futures for the ppl who live & work in Wiltshire; with programmes & services that aim to meet their objectives: connecting communities, tackling disadvantage, encouraging enterprise & inspiring ideas through innovation.

› Creative Case

Tell us how your project addresses the Creative Case for Diversity
(1500 characters) <all applicants must answer>

At a time when the cost of living crisis is affecting families across the nation this is a prevalent moment to develop the Forest Bathing VR experience which seeks to engage the UK's most underrepresented communities with the arts & nature in a viable, accessible & affordable way.

Forest Bathing is a female-led future-facing tech-art & environmental project that:
-offers Joanna (artist/project lead) cultural & creative authority/opps to work in new & innovative ways by partnering with creative technologists
-creates accessibility for Joanna to develop new skills within the male-dominated tech-art sector
-uses art & culture to inspire marginalised young ppl who (identified by Community First)
-works with curated partners to reach individuals with lived experience of poor mental health & mobility challenges
-breaks down geographical barriers for young ppl in Wiltshire by connecting them with a local cultural hub (Messums Gallery)
-creates new networks between project partners (Messums Gallery & Community First) to continue working relationship that connects Wiltshires community with arts & culture
-uses innovation (tech/art/science/data) to inspire & influence
-provides a FREE & accessible state-of-the-art VR experience that enables marginalised non-metropolitan young ppl to engage with creative opps (via exhibition, wkshps & Q&A)
-fosters creative engagement via GLO's/GSO's from FREE wkshps; new skills, social cohesion improvements, mental well-being improvements, confidence, creative pipelines to future cultural engagement in the local area/Wiltshire
-creates an accessible cross-sector artwork that can be used as a tool for mental health practitioners to support individuals with physical/mental health & well being issues; future opps to use as a viable form of social prescribing
- platforms a positive model of digital as an inclusive tool to build cultural experiences for marginalised grps in the UK.

Environmental Responsibility

▲ Only respond to this section if it is relevant to your project. If you do respond to this section you do not have to answer every question, only the ones you tick. ▲

› Using data

Has your project been informed by your own or other environmental data? If so tell us about it here:

Tickbox

▲ When ticked a 1500 character narrative text box will appear ▲

Environmental advocacy & responsibility are at the core of Forest Bathing. Project consultant, Guy Shrubsole informs the work by sharing that:

- A YouGov poll recently found that 93% of the British public support protecting the country's rainforest
- 85% back its expansion
- 80% think public funding should support its restoration
- 18,870 hectares (46,628 acres) of forest that survive in England could double in size within a generation if they were allowed to naturally regenerate.

Informed by this environmental data, the VR experience will work to:

- 1) develop a creative & accessible way to engage with nature
- 2) educate on the extinction risks for temperate rainforests; these biodiverse habitats are some of the most endangered areas of rainforest in the world.

To support FB & its legacy as an accessible tool for engaging with arts & nature, Guy Shrubsole, will consult on the project to:

- feedback on how to share environmental data & facts in an accessible, inclusive & digestible way
- create a supporting document that can be used for future development of the project on a national scale.

Ambition and Quality

▲ *Only respond to this section if it is relevant to your project. If you do respond to this section you do not have to answer every question, only the ones you tick.* ▲

› Developing Your Work

If this project aims to develop your skills (and those you work with) and contribute to your longer-term ambitions for strengthening the quality of your work, tell us about it here:

Tickbox

▲ *When ticked a 1500 character narrative text box will appear* ▲

This project will be the first time Joanna has:

- collaborated with other future-facing tech-art creatives (eg. Giles Piers & Michael Danks) to lead a digital oriented art project
- co-created an immersive VR artwork
- developed niche skills; working with future-facing tech (eg. drone footage & 360 capturing) to inform & create artwork
- collaborated with community/charity-oriented partners (Community First & Charlie Waller Trust)
- collaborated with the internationally renowned Messums Art Gallery
- co-devised a participatory wkshp model that engages marginalised young ppl with art & culture
- placed social inclusivity at the heart of her practice & work
- created an artwork that advocates an immediate need for climate action (raising awareness around the demise of the UK's rainforests)
- created an artwork that supports mental health & well-being by engaging with nature innovatively
- introduced cross-sector working to her practice

The project contributes to Joanna's long-term ambitions to:

- spear-head art & culture as a viable tool/resource for social prescribing
- move away from a commercially oriented practice to being a socially engaged practitioner
- share the viable pilot immersive VR artwork on a national scale with the NHS & mental health charities
- gather more data to inform the project's development; future iterations pilot iterations
- apply for larger funding opps to engage a national audience; oriented around communities, groups & individuals in society who are faced with barriers to art & nature due to their complex socio-economic positions.

MEASURING SUCCESS:

Success for Forest Bathing looks like:

- creative content captured of the UK rainforests by Joanna (stills & sound), Michael Danks (drone tech), Giles Piers (360 content)
- a unique pilot VR artwork co-created with tech artist Jesse Thompson
- 1.5 days of expert consultation from NHS mental health experts to provide feedback on viable user experience of VR set for young ppl faced with mental health issues
- a viable cross-sector art work (mental health, arts & culture & environmental sectors) that has future potential to be used as a form of social prescribing
- 1.5 days of expert consultation from environmental expert (Shrubsole) to provide relative data & evidence to inform project's environmental responsibility on the UK's endangered rainforests
- x20 sales of photographic prints at Messums exhibition
- est. 2000 audience for 6-week exhibition at Messums Gallery
- est. 200 audience at collaborative exhibition Q&A
- hyper-informed project document created & compiled by strategist Rosie Wells; inc. all relevant data & evidence gathered from experts to support evaluation & future project iterations
- Sasolo consultation & feedback on project impact/development to support national scale growth & outreach for future iterations
- data provided by NHS & mental health experts evidences the project's legitimacy as creating & providing a creative resource that can be used for social prescribing; piloting on marginalised young ppl
- data provided by the environmental expert (Shrubsole) evidences the project's advocacy & education around the climate crisis; deforestation of the UK's rainforests.

Attachments

"If you would like to include a document or web link to give us a sense of your work (or that of any artists or creatives you are working with) you can do it here. For example, this could be an image, a music file, a sample of your writing, a video, a link to an online portfolio or a review of your work."

Letter attachment – if you need permission to apply

Other attachment – illustrate quality of your work - one doc or web link, maximum 5 pages
