

Introduction

National Lottery Project Grants

We will ask you questions about different parts of your activity:

- Some basic details about your project – when it's happening, what it's called
- What you want to do, why, and what you want it to achieve
- Who your project will engage, and how they'll engage with it
- How you will manage the project
- The budget for the project

We will use the information you give us in this application to decide whether we will offer you a grant.

The first few screens are autofilled with information you have already provided in your applicant profile. If you need to make any amendments, go back to the 'Applicants' section and edit your applicant profile.

Throughout Grantium, any questions marked with an asterisk (*) must be answered otherwise you won't be able to submit your form.

All our text boxes have a character limit. Please stick to this character limit as any additional text won't be saved.

Please note that currently decisions for National Lottery Project Grants applications for up to £30,000 will take up to 9 weeks. Decisions for National Lottery Project Grants applications for £30,000 and over will take up to 14 weeks.

Feasibility and risk

This section helps us to understand how you will successfully deliver your project.

We need to know your plans for managing the project, what your budget is and how you will respond to any risks or challenges.

You don't need to have managed a project before, but you need to be able to demonstrate that you have given consideration to how you will manage the project, the budget, and any risks/challenges, and that you or your project partners have the skills to ensure it is delivered successfully.

When we look at your answers to the questions in this section we will think about:

- whether the budget is appropriate for the scale and type of activity?
- how appropriate are the areas of income and spending?
- whether all items in the budget are relevant and reasonable [are fees or wages appropriate to the context? Have quotes for assets/equipment been appropriately researched for any purchases?]
- whether the activity is attracting income from other sources; - is any other income confirmed? If not, are your potential income sources realistic?
- if appropriate financial controls are in place - Do you or the people you're working with have the necessary skills to manage the budget?
- if the activity is realistic and well-planned, and if you have demonstrated that you or the people you are working with are able to deliver the project

- The table already includes any Support in kind you added on the Income screen so you do not need to add this.
- Breakdown your expenditure so we can understand your costs, for example: Artist fee (2 x Creative specialists @ £150 per day for 10 days = £3,000)

Turan will invite participants & all of the Derma community to attend the community performance of Lovers Company at DB Music. Risks and challenges

**What are the main risks and challenges to your project meeting its aims?
What will you do to manage these risks?**

Up to 1500 characters

Scale of budget & production:

-Turan has managed budgets for 10+ yrs & the accounts & production for wkshps & events, album releases & PR campaigns. She has produced, co-produced or promoted, both in UK & internationally.

-Album launch event responds to demand from Turan's audience & that of venue, & therefore rational, well-budgeted & deliverable. The management time is costed to reflect this & supported by Sasolo, an experienced grass roots arts consultancy firm.

-Rigorous press campaign created by Prickly Pear will ensure the project taps into Turan's existing audience, as well as new audiences, to engage with Turan's music & the discussion she is advocating around immigration & the diaspora.

-Accessibility: allocated tickets: pay what you can model to ensure Album Launch event is affordable for all.

-Addressing themes around immigration & the diaspora could be confronting for some of the audience & wkshp participants. Turan will include a disclaimer as part of the Press Strategy to highlight the content being explored in her music & discussed at the wkshps & community performance so that no one is caught off guard

-Turan will facilitate wkshps with vulnerable members of the Derman & IMECE community. Turan will have support from both centres to facilitate the wkshps to ensure safeguarding is in place & that all participants feel comfortable so that they can share & engage with the experience.

Delivering the Outcomes

Your Project and the Outcomes

Our strategy sets out three outcomes; Creative People, Cultural Communities and A Creative and Cultural Country. We do not expect every project to address all three outcomes, but we do want projects to align to at least one and to set out in detail how particular components are being addressed.

You can read about our three outcomes here: <https://www.artscouncil.org.uk/outcomes-0>

When we look at your answers to the questions in this section, where relevant we will think about:

- How your project is supporting people at all stages of their lives to design, develop and increase their participation in high quality creative activities
- If your project focuses on children and young people:
 - If your project reaches families from a wide range of backgrounds
 - If you are widening and improving opportunities for children and young people to take part in creative activities outside schools
 - if your project is supporting children and young people to develop their creative skills and potential
- If you are working with communities to better understand and respond to their needs and interests, resulting in increased cultural engagement and the wide range of social benefits it brings
- If your project is exploring new types of creative practice, new forms of cultural content and new ways of reaching new and existing audiences and participants
- If you are collaborating with other cultural organisations and/or with the commercial creative industries and/or with further and higher education that focuses on innovation, research and development and training, especially in relation to the use of new technologies
- If your project is strengthening the international connections of cultural organisations and creative and cultural practitioners, including co-production and touring
- If your project is bringing world-class culture to audiences in England
- If your project helps to ensure people have opportunities to sustain their careers and fulfil their potential in the creative industries, especially those who are currently under-represented
- If your project is connecting people and places, nationally and internationally

How will your project contribute to the delivery of at least one of our Outcomes, including which, if any, of the Outcome components?

A Creative and Cultural Country: England's cultural sector is innovative, collaborative and international, Creative People: Everyone can develop and express creativity throughout their life

Djanaan Turan's socially engaged album project, Lovers Company will explore culturally significant, representative & historic narratives that touch upon the collective experience of displacement for London's MENA communities.

20 female DV survivors (via IMECE) & 20 refugees & asylum seekers (supported by Derman) will have the opportunity to develop & increase their participation in resonant, aligned & enriching cultural activities. They will:

- experience Turkish folkloric idioms; participants will listen to Turan's album that centres cultural heritage & connectivity
- build vocal technique & storytelling skills in collaboration with Turan
- perform their own choral compositions at the community performance of Turan's album
- share stories, creatively, wkshpping skills & new ways to express stories of displacement.

This will:

- offer creative development for marginalised participants
- result in increased confidence, connectivity & cultural/social capital
- encourage singing & connectivity via rhythm & melody exercises.

The wkshps will:

- be free entry learning sessions to remove financial barriers
- connect grps with their cultural heritage & the origins of modern Turkish music by exploring the album in a Q&A session & sharing lived experiences
- visibilise representative role models to improve career sight-lines
- be a safe space for vulnerable ppl to be creative & develop cultural agency; increasing participation in quality cultural activities.

A Creative and Cultural Country:**How will your project contribute to this outcome?**

Djanan Turan is a mid-career singer/songwriter with 20+ years in the UK industry. She is an outstanding pioneer of Turkish folkloric excellence; a cultural custodian producing zeitgeist material to enrich the UK music ecology.

The multifaceted album release will:

- sustain the collaborating practitioners' careers, esp. visibilising a female immigrant artist & her innovative practice
- support Turan to fulfill her potential in the UK music scene; inviting industry gatekeepers to album launch inc. Turquazz Culture & Istanbul Elsewhere
- launch work with digital/metaverse partner Decentraland to ensure under-represented artists' are platformed globally via decentralised meta platforms that will dominate culture by 2030
- connect communities to artists; enriching creative experiences, eg. community performance inc. discussion on the diaspora & experience of displacement for the Turkish, Kurdish, Turkish Cypriot communities in London
- link London's MENA audiences to newly arrived immigrants (via Derman), so album can act as a muse for connecting diasporic individuals, building new audiences
- create legacy assets & interest for future touring/funding opps
- reframe Turkish folkloric as classical, unpicking the neo-colonial aspects of the idiom
- cross-pollinate Turkish music pedagogy with European influences in a British-based network; empowering all collaborators to transmit lineage & knowledge to representative communities.

Inclusivity and Relevance

This Investment Principle is about England's diversity being fully reflected in the organisations and individuals we support and the culture they produce through:

Communities

- Tell us who you want to reach with this project, how you have identified them, and how they have been involved in the planning and/or creative process
- Tell us about the steps you will take to make sure your project is open and accessible to people within the communities you plan to work with

The project platforms Turan as an agent of cultural memory & connectivity, creating experiences (album launch party, wkshps & community performance) targeted at:

- London's Turkish community; esp. refugees & asylum seekers & DV survivors, via IMECE, Prickly Pear & Derman
- other diasporic communities who relate to themes of displacement, via Turan's extensive network
- emergent musicians from MENA diasporas, via DB Music Studio
- non-metropolitan / international audiences via Album Launch livestream (Streamzy) & legacy assets (Streamzy video recording for online distribution)
- international metaverse audience via Decentraland
- wider (international) audience, interested in folkloric & modern Turkish idiomatic music (the Jamboree).

Turan has actively engaged Hackney/East London's Turkish community (4.5% of residents) via Derman & IMECE over the past 12 months. Continual F2F consultation has resulted in feedback requesting wkshps/activities that:

- are free to access to stop barriers to participation for these marginalised grps
- centre cultural heritage & connectivity via music, building skills & cultural inclusivity
- celebrate memories of their homeland
- engage participants with the album themes
- help prevent a disconnect with the culture of immigrant families in London.

Access /Inclusion

- uses devolved triage to ensure Turan connects to the stakeholders
- wkshps are free to access
- bespoke, free, hyper local live music performance in Stoke Newington.

Workforce

- If you're engaging a team of people to work on your project, or are working in partnership with other individuals or organisations, tell us:
- How you will ensure they reflect the communities you wish to reach
- How you will ensure access to opportunities are open and accessible
- If you're not working with anyone else on your project you should explain why and consider how working with others would help you to reflect the communities you wish to reach.

Up to 1500 characters

The project promotes a culturally diverse & talented ensemble of collaborators. Turan is working with:

- a group of international musicians, eg. Baha Yetkin, an experienced Oud player (traditional Turkish instrument). Each collaborative artist is a cultural ambassador contributing music that ensures tradition, idiomatic tuning, pattern, melody & phrasing bring a new, innovative collab to life.
- Prickly Pear PR, to connect & engage with London's Turkish community via the firm's networks in the London & global music scenes; inviting established industry gatekeepers to attend the album launch, inc. established promoters Turquazz Culture, Continental Drifts, Kazum & Istanbul Elsewhere
- Derman, to engage with Hackney's Turkish Cypriot community esp. refugees & asylum seekers
- IMECE, to connect local Turkish women affected by DV to their heritage via cultural / creative music initiatives
- Derman & IMECE to facilitate wkshps that support stakeholders to; create lyrics; share experiences of being a displaced person in London; engage with creative / cultural activities
- Streamzy, to access a national & international audience via online engagement, additional to the physical events (album launch & community performance)
- Decentraland, to share the album with an international future-facing online community via the meta performance.

Creative Case

- centres cultural/creative agency for vulnerable ppl via Derman & IMECE networks
- develops autonomy for MENA diaspora musical collaborators via: new networks & industry gatekeepers (eg. established MENA/London promoters; Turquazz Culture, Continental Drifts, Kazum & Istanbul Elsewhere)
- creating musical assets & interacting with music spaces (DB Music Studio & the Jamboree) to platform excellence
- diversifies 'gatekeeping' by deepening the understanding of 'Turkish folkloric' as classical, sharing heritage music to unpick modern narratives that then encourage the engaged MENA community to connect with/make music
- changes what professional looks like by listening to & platforming artists from the diaspora, who bring new pedagogies to the UK ecology
- creates digital content (Streamzy & Decentraland) to enable international audience development, removing geographical barriers
- partners with female-led management & evaluation consultancy firm
- offers free wkshps to East London's Turkish community, removing financial barriers

Turan will continue her creative partnership with the future-facing online platform Decentraland to showcase Lovers Company via a unique metaverse performance as part in their avatar, 3D concert hall.

As the first female musician to have performed (in 2020) in their metaverse concert hall, Turan is strengthening her connections & new audience reach with the fully autonomous 3-D, user-owned, Ethereum-based virtual reality world platform & metaverse.

The Ethereum blockchain model offers decentralised ownership which is important for Turan, a female immigrant artist, to develop ownership & agency in the digital metaverse.

Exposure to Decentralands international community will:

- build Turan's NFT/AI/tech-based audience as a female Turkish immigrant & folkloric musician
- generate new funding revenues via cryptocurrency exchange as Decentraland is part of a growing metaverse trend that has led to a proliferation in meta-related coins
- create future opps for Turan to showcase new material via the platforms metaverse.
