Feasibility and risk

This section helps us to understand how you will successfully deliver your project.

We need to know your plans for managing the project, what your budget is and how you will respond to any risks or challenges.

You don't need to have managed a project before, but you need to be able to demonstrate that you have given consideration to how you will manage the project, the budget, and any risks/challenges, and that you or your project partners have the skills to ensure it is delivered successfully.

When we look at your answers to the questions in this section we will think about:

- whether the budget is appropriate for the scale and type of activity?
- how appropriate are the areas of income and spending?
- whether all items in the budget are relevant and reasonable [are fees or wages appropriate to the context? Have quotes for assets/equipment been appropriately researched for any purchases?]
- whether the activity is attracting income from other sources; - is any other income confirmed? If not, are your potential income sources realistic?
- if appropriate financial controls are in place - Do you or the people you're working with have the necessary skills to manage the budget?
- if the activity is realistic and well-planned, and if you have demonstrated that you or the people you are working with are able to deliver the project

Project timeline

Project dates

Please allow enough time to plan your project and for us to process your application, as well as enough time for us to make a payment before your start date if your project is successful. See our How to apply guidance for more details.

The dates you give here should be the dates for the full project you're asking us to fund.

Please note that currently decisions for National Lottery Project Grants applications for up to £30,000 will take up to 9 weeks.

Project start date: 08/01/2024

Project end date: 30/08/2024

Expenditure questions

How have you worked out the costs of the artistic spending included in your budget?

Up to 1500 characters

As Co-Founder of Rum*Luck, Conrad has extensive experience managing budgets & projects of a similar scale to MILK:TEETH. He has used certified ITC rates for all theatrical collaborators:

Visual Director
Set & Costume Designer
Stage Manager
Director
Sound Designer
Lighting Designer
Company Manager

Conrad has paid himself a writer's fee of £175 per day for x 2 days to develop & write the M:T script, this factors in the time he will need to collate all content developed & workshopped via the Theatre Peckham collaboration.

Conrad has allocated funds for the wkshp participants to travel to the premier of M:T at Greenwich Theatre so they can attend the opening night & participate in the post-performance Q&A.

Travel/Accommodation:

National: train tickets for x 3 locations for x 3 ppl (Conrad, Company Manager & Stage Manager) have been quoted via trainline & accommodation via Travel Lodge

International: flights for x 3 (Conrad, Company Manager & Stage Manager) have been quoted via Skyscanner & Travel via local Travel Lodges.

Per diems have been factored in for national & international travel for x 3 ppl (Conrad, Company Manager & Stage Manager).

A subscription to Soundscape is essential to support the unique soundscape that will be created in collaboration with artist Jose Macabre.

How have you worked out the costs of making your work accessible included in your budget?

Up to 1500 characters

Theatre Peckham is working with Conrad to support the delivery of an accessible wkshp model for its cohort of wkshp participants, which will support the creation of an accessible & inclusive script via the cohort's personal & creative input.

Theatre Peckham will:

- provide their expertise in supporting Global Majority young ppl from complex socio-economic backgrounds in engaging with creative experiences via theatre. Conrad will work with Young Peckham Coordinator Jamel Alatise to co-devise the wkshps to inform the script development of M:T (1 day)
- oversee the x4 wkshps (2 days - split over 4 half days) & support in facilitating the creative workshoping, inc. using the Bola technique
- provide expert feedback on Conrad's wkshp facilitation with the Theatre Peckham cohort; exploring ways they can work towards long-term engagement between Rum*Luck & Theatre Peckham re future iterations of theatre production development (1 day).

Theatre Peckham's support will total: 2 days of consultation (pre & post wkshps) & 2 days overseeing the wkshps (these will be spread over 2 weeks, taking place over half days).

Evaluation/Consultation Fee of £50 for x 5 UK-based project partners to discuss the accessibility of performance for Neurodivergent audiences: Conrad will invite partners to participate in a final online consultation on the accessibility & inclusivity of M:T as a theatre production.

How have you worked out the costs of marketing and developing audiences included in your budget?

Up to 1500 characters

As this will be the first one-person show Conrad/Rum Luck has created, funds have been allocated for working with Publicist, Flavia Fraser-Cannon. Flavia is a well-respected publicist within London's theatre scene & will spend x 1 day working with Conrad to create a press strategy;

- a list of media contacts to reach out to for the Greenwich Premier
- a list of media contacts to reach out to for the national & international tours

Role in project: George will be in charge of scenic, props and costume. He will be sourcing props, buying furniture, designing and buying costumes, costume alterations. Scenic and props. He is an experienced. I have worked with George on many different projects. He has a very feminine design eye, and I believe it will juxtapose the masculinity of the show. He came to the initial script development sessions and art designed the photo shoot for the promotion of the show. He has been involved since its conception and his input and advice has been invaluable. George Alexander is a multidisciplinary artist working predominantly in fashion illustration and textiles. Since graduating from Goldsmiths in 2010 he has worked as a scenic artist and designer for film and theatre. His eclectic, maximalist style has encouraged him to work across a wide variety of projects including comedy, theatre, short film and most recently Art Direction for television. Based out of his studio in Greenwich George works closely with his collaborators to design work that is exciting, accessible and creatively challenging. Working with The Unicorn Theatre, The East London Shakespeare Festival and The Vaults Waterloo for a number of years had given George an extensive understanding of theatre to audience dynamic, which is key to his work."

As the show is devised, and re-written and re-scripted during rehearsals, Joe as dramaturg is invaluable because of this special relationship. Joe is November Club's Artistic Director & CEO and took up the position in January 2021. Joe has spent his career making site-specific and immersive theatre of all shapes and sizes. As well as directing theatre, Joe has led development and consultancy projects in the heritage and commercial sector based around site-specific story telling. Joe is from a working class background in South East London where Milk:Teeth is set. His wealth of experience as artist and director goes hand in hand with his understanding of working class people and the realities they face and their experiences. Milk:Teeth is a partly devised piece that will be actor driven during its development. Unlike many directors Joe started his career as an actor with companies such as Belt Up Theater Company. This gives him further insight into the working process of an actor and allows him to guide a performer through the creative process. Joe's experience with the november club and the work they do there with audience engagement makes him perfect as the leader of our workshops and audience engagement projects. He will run the Workshops alongside Conrad acting as director and facilitator."

Main contact (if organisation):

Email address: josemacabra@gmail.com

Role in project: "Jose Macabra has been on board with the project since its conception. His sound design is regularly an art piece in itself, where people will come just to listen. The sound design for MILK:TEETH involves the sound acting as a non-verbal character. Jose works with industrial and disturbing soundscapes, which is perfect to portray the ominous unseen character in the show. Jose also brings knowledge of any additional sound equipment that we might be able to bring to make the show more tourable and accessible to non-theatre venues. Jose is an artist, sound designer, producer, video director, radio DJ/podcast maker and curator. Jose teaches Electronic Music Production, Sound Design and Sound Arts at the London College of Communications, UAL and SAE Institute London. His work nourishes many influences, from the industrial and noise panoramas, together with a legion of related genres such as ritual and the darker flavours of techno, blended with sound art, soundscape, art brut and Experimental music. Jose has the ability to "live orchestrate" meaning he can produce music and soundscapes in the moment, improvising with performers. During the workshop portion of our development we will work on scenes with participants and explore the effect that music has on the piece. Participants may also be able to take over the creation of the sound adding their own score. We will also experiment with actors improvising to the sound, reacting to what they hear and responding to the score. This experience of "live mixing" will allow Jose to be an active member of the rehearsal process. Mixing sounds live as the action happens on stage, responding to Conrad's work as Conrad responds to his. Ultimately the final score will then be recorded and fixed. Jose also works as a lecturer at the London College of Communication meaning we will have access to their recording studio and equipment at a discounted rate. A portion of the show will have recorded dialogue so this access will be invaluable

Role in project: The Tom Thumb Theatre is a family run arts hub by the sea in the heart of Cliftonville, Margate. Originally built as a coach house in Victorian times, the building was transformed into one of the smallest theatres in the world in 1984. The Tom Thumb is a striking mix of Japanese and Alpine Architecture, with a charming interior of velvet seats and flocked wallpaper. At the Tom Thumb we aim to be a springboard for emerging talent and a laboratory for more established artists to experiment with new work. We programme a wide range of work including theatre, music, film, comedy, poetry and cabaret and pride ourselves on working closely with the community and minority groups. Conrad was put in contact with Tom Thumbs Artistic director Alex Ratcliff by two other solo performers Brigitte Aphroditie and Quiet Boy. Both performers are neuro divergent like Conrad and both heralded Tom Thumb as a place of inclusion and free expression. Margate is increasingly becoming a satellite community of London's artists who are keen to support challenging and neurodivergent work while also including Margate's local maritime community.

Delivering the Outcomes

Your Project and the Outcomes

Our strategy sets out three outcomes; Creative People, Cultural Communities and A Creative and Cultural Country. We do not expect every project to address all three outcomes, but we do want projects to align to at least one and to set out in detail how particular components are being addressed.

You can read about our three outcomes here: <https://www.artscouncil.org.uk/outcomes-0>

When we look at your answers to the questions in this section, where relevant we will think about:

- How your project is supporting people at all stages of their lives to design, develop and increase their participation in high quality creative activities
- If your project focuses on children and young people:
 - If your project reaches families from a wide range of backgrounds
 - If you are widening and improving opportunities for children and young people to take part in creative activities outside schools
 - If your project is supporting children and young people to develop their creative skills and potential
- If you are working with communities to better understand and respond to their needs and interests, resulting in increased cultural engagement and the wide range of social benefits it brings
- If your project is exploring new types of creative practice, new forms of cultural content and new ways of reaching new and existing audiences and participants
- If you are collaborating with other cultural organisations and/or with the commercial creative industries and/or with further and higher education that focuses on innovation, research and development and training, especially in relation to the use of new technologies
- If your project is strengthening the international connections of cultural organisations and creative and cultural practitioners, including co-production and touring
- If your project is bringing world-class culture to audiences in England
- If your project helps to ensure people have opportunities to sustain their careers and fulfil their potential in the creative industries, especially those who are currently under-represented
- If your project is connecting people and places, nationally and internationally

How will your project contribute to the delivery of at least one of our Outcomes, including which, if any, of the Outcome components?

A Creative and Cultural Country: England's cultural sector is innovative, collaborative and international, Creative People: Everyone can develop and express creativity throughout their life

The wkshps will:

- explore the notion of toxic masculinity & how it is often forced upon men at a young age

- Young men/teenagers
- National/international live audience audience (inc. University Theatre Students)

As a Neurodiverse creative practitioner who had limited social mobility when growing up in Manchester, Conrad wishes to use M:T to target a community of underrepresented young men & teenagers in order to share/use his story as a way of promoting viable ways to have a legitimate creative career/advocating access to the arts & culture sectors.

Conrad will:

- work with Global Majority young men & teenagers (16 - 24) who can identify with the themes addressed in the play to ensure the script development of M:T is authentic & inclusive. Conrad has identified the wkshp participants via Theatre Peckham, who illuminate young voices, provide skills & opportunities, & platform excellent creatives located within the Southwark Borough
- Conrad will platform their voices by inviting the wkshp participants to participate in a Q&A on the opening night of the M:T premiere at Greenwich Theatre.

Live audience:

- a national & international audience will be engaged; working with established theatre venues: Greenwich, Tom Thumb, Northumbria Uni, Act Alone Festival etc.
- Theatre Students via Northumbria uni to share his newly developed technique of scrip development; inc. his use of the Bola technique to explore complex/sensitive themes.

Workforce

- If you're engaging a team of people to work on your project, or are working in partnership with other individuals or organisations, tell us:
- How you will ensure they reflect the communities you wish to reach
- How you will ensure access to opportunities are open and accessible
- If you're not working with anyone else on your project you should explain why and consider how working with others would help you to reflect the communities you wish to reach.

M:T will promote inclusivity & accessibility to the arts/theatre by:

- partnering with Theatre Peckham to engage underrepresented young men from Southwark to engage in creative activities to inform the script development

MILK:TEETH will be the first one-person show Conrad has developed in collaboration with a specific underrepresented community to understand what they think about his work/how it can be informed by their experiences to make it authentic & accessible to a diverse audience.

Threatre Peckham: x 10 participants have been identified by the community theatre company to participate in x 4 creative wkshps to support the script development of M:T. Conrad will co-devise the x4 wkshps with Young Peckham Coordinator: Jamel Alatise to ensure they are engaging & fully inclusive; offering creative ways to encourage the participants to express their personal experiences of the themes addressed. It is essential that Conrad understands what the wkshp participants think when it comes to informing the play & how he puts together the script in order to make it fully inclusive & accessible for a variety of audience members, including those who are traditionally under-represented in the arts.

Northumbria Uni: Conrad will host x 2 wkshps with Northumbria Uni who have an MA Drama course in solo performance creation. The wkshps will be for students to discuss Conrad's process of artistically creating a solo performance & explore the practicalities of putting one on. This will support how Conrad uses these techniques for future iterations of theatre production co-devising.

MILK:TEETH brings you into the prison cell of violent career criminal, Billy Cardiff, but this story has a quantum twist. Through his years in solitary confinement, Billy has managed to acquire the ability to time travel back in his own life and alter the outcome. But something is wrong. A dark presence is growing in the liminal space, the place between time. Billy's obsessive meddling with the time-line is not going unnoticed and the beast is growing stronger.

A visceral gut-punch of a show exploring toxic masculinity, and isolation and its effect on mental health, seen through the prism of inter-dimensional physics... from a jail cell.

The Greatest Liar in All the World (Written and starring Conrad Sharp)

“Every now and then, you come across a play that seems to ignore the lines between children’s and adults’ theatre, comedy and tragedy, circus act and bare monologue to convey the sublime itself. Familia de la Noche’s *The Greatest Liar in All the World* is not that play. It’s funnier.” - The Skinny

The Very Grey Matter of Edward Blank (Written and directed by Conrad Sharp)

“The richly inventive, layered mosaic of ideas is a pleasure to watch from eye-popping intro, to sweetly-resigned finish-line.” - The List
